Un-collapsed and unadjusted data by state.....	50
Table D1. Who chose (or picked) the place where you live? ( <i>if not living the family home</i> ).....	51
Table D2. Did you choose (or pick) the people you live with (or did you choose to live by yourself)? ( <i>if not living the family home</i> ).....	52
Table D3. Who chose (or picked) the place where you work? ( <i>among those with a job in the community</i> ) .....	53
Table D4. Chose or had some input in choosing day program or workshop (adjusted variable; among those determined to attend a day program or workshop; ‘person made the choice’ and ‘person had some input’ responses; proxy respondents were allowed for this question) ± 9 ^ .....	54
Table D5. Do you choose (or pick) your staff?.....	55
Table D6. Who decides your daily schedule? .....	56
Table D7. Who decides how you spend your free time? .....	57
Table D8. Do you choose what you buy with your spending money?.....	58
Table D9. Can you change your case manager/service coordinator if you want to? .....	59

Table D10. Was in community paid job ( <i>individual with or without public services, group supported or community job in a business that primarily hires people with disabilities</i> ).....	60
Table D11. Bi-weekly hours and wage (not including benefits and before taxes or deductions) information among those with a paid individual community job with or without publicly funded supports.....	61
Table D12. Bi-weekly hours and wage information among those with a paid group <i>job with or without publicly funded supports</i> .....	62
Table D13. Bi-weekly hours and wage information among those with a paid job in the community that primarily hires people with disabilities .....	63
Table D14. How long has this person been working at his/her current job? ( <i>among those with a paid community job</i> ) .....	64
Table D15. Does this person receive paid time off (e.g., vacation, holiday, or sick time) at his/her job? ( <i>among those with a paid community job</i> ) .....	65
Table D16. Would you like to have a job in the community? ( <i>among those with no paid community job</i> ) .....	66
Table D17. Is community employment a goal in this person's service plan? .....	67
Table D18. Do you take classes, training, or do something to help you get a job, get a better job, or do better at the job you have now?.....	68
Table D19. Do you go to a day program or sheltered workshop?.....	69
Table D20. Do you volunteer?.....	70
Table D21. Is this person currently using a self-directed supports option? .....	71
Table D22. Who makes decisions about how your budget for services is used? ( <i>among those using a self-direction option</i> ) .....	72
Table D23. Do you hire and manage your staff? ( <i>among those using a self-direction option</i> ) .....	73
Table D24. Can you make changes to your budget/services if you need to? ( <i>among those using a self-direction option</i> ) .....	74
Table D25. Do you have enough help deciding how to use your budget/services? ( <i>among those using a self-direction option</i> ) .....	75
Table D26. Do you get information about how much money is left in your budget/services? ( <i>among those using a self-direction option</i> ).....	76
Table D27. Is the information easy to understand? ( <i>among those using a self-direction option and who receive information about money left in their budget/services</i> ) .....	77
Table D28. How often do you get information about how much money is left in your budget/services? ( <i>among those using a self-direction option and who receive information about money left in their budget/services</i> ) .....	78
Table D29. How many times did you go shopping in the past month? .....	79
Table D30. Who did you usually go shopping with? <sup>o</sup> ∞.....	80
Table D31. How many times did you go out on errands or appointments in the past month .....	81
Table D32. Who did you usually go with when you went on errands or appointments? <sup>o</sup> ∞.....	82
Table D33. How many times did you go out for entertainment in the past month? .....	83
Table D34. Who did you usually go with when you went out for entertainment? <sup>o</sup> ∞ .....	84
Table D35. How many times did you go out to a restaurant or coffee shop in the past month? .....	85
Table D36. Who did you usually go with when you went to restaurants or coffee shops? <sup>o</sup> ∞.....	86
Table D37. How many times did you go out to a religious service or spiritual practice in the past month? .....	87
Table D38. Who did you usually go with to religious/spiritual practices? <sup>o</sup> ∞ .....	88
Table D39. Do you participate as a member of community groups in your community?.....	89
Table D40. Who did you participate in community groups with? <sup>o</sup> ∞ .....	90
Table D41. In the past year, did you go away on vacation? .....	91
Table D42. Who did you usually go on vacation with? <sup>o</sup> ∞.....	92
Table D43. Are you able to go out and do the things you like to do?.....	93
Table D44. Do you get to do the things you like to do as much as you want to? .....	94
Table D45. When you are at home, do you have enough things you like to do? .....	95
Table D46. Do you have friends you like to talk to or do things with? .....	96
Table D47. Do you have a best friend, or someone you are really close to? .....	97
Table D48. Do you want more help to make or keep in contact with your friends? .....	98
Table D49. Can you see your friends when you want to?.....	99
Table D50. Do you have other ways of talking, chatting or communicating with your friends when you cannot see them?.....	100
Table D51. Can you see and/or communicate with your family when you want to? ( <i>among those who do not live in the family home</i> ).....	101
Table D52. Do you ever feel lonely? .....	102

Table D53. Can you go on a date if you want to? .....	103
Table D54. Do you like your home or where you live? .....	104
Table D55. What don't you like about where you live? .....	105
Table D56. Would you like to live somewhere else?.....	106
Table D57. Do you like where you work? ( <i>among those with a paid community job</i> ).....	107
Table D58. Do you want to work somewhere else? ( <i>among those with a paid community job</i> ).....	108
Table D59. Attends a day program or workshop and wants to go more, less, or the same amount of time .....	109
Table D60. Services and Supports help person live a good life.....	110
Table D61. Have you met your case manager/service coordinator? .....	111
Table D62. Does your case manager/service coordinator ask what you want? .....	112
Table D63. Are you able to contact your case manager/service coordinator when you want to? .....	113
Table D64. Do your staff come and leave when they are supposed to? .....	114
Table D65. Did you take part in the last service planning meeting? .....	115
Table D66. At the service planning meeting, did you know what was being talked about? .....	116
Table D67. Did the service planning meeting include the people you wanted to be there? .....	117
Table D68. Were you able to choose the services that you get as part of your service plan? .....	118
Table D69. Do you have a way to get places you need to go? .....	119
Table D70. Are you able to get places when you want to do something outside your home, like going out to see friends, for entertainment, or to do something fun? .....	120
Table D71. Do you feel that your staff have the right training to meet your needs? ( <i>does not include responses from proxies who were staff</i> ) .....	121
Table D72. Does this person have a primary care doctor or primary care practitioner? .....	122
Table D73. Overall, how would you describe your health? .....	123
Table D74. When was his/her last complete annual physical exam? .....	124
Table D75. When was his/her last dentist exam?.....	125
Table D76. When was the last time this person had an eye exam/vision screening? .....	126
Table D77. When was the last time this person had a hearing test? .....	127
Table D78. If female, when was her last Pap test screening? ( <i>among women 21 and older</i> ) .....	128
Table D79. If female, when was her last mammogram? ( <i>among women age 40 and over</i> ) .....	129
Table D80. When was the last time this person had a screening for colorectal cancer ( <i>among people age 50 and over</i> ) ∞ .....	130
Table D81. During the last 12 months, has this person had a flu vaccination?.....	131
Table D82. Takes at least one medication to treat mood disorders, anxiety, psychotic disorders and/or behavior challenge.....	132
Table D83. Does this person currently take medications to treat mood disorders, anxiety, and/or psychotic disorders? .....	133
Table D84. How many medications does this person currently take to treat mood disorders, anxiety, and/or psychotic disorders? .....	134
Table D85. Does this person currently take medications for behavioral challenges? .....	135
Table D86. How many medications does this person currently take medications for behavioral challenges? ..	136
Table D87. Does this person have a behavior plan? .....	137
Table D88. Has a behavior plan ( <i>among those who take medication for a behavior challenge</i> ).....	138
Table D89. How often do you exercise or do physical activity for at least 10 minutes at a time? ° .....	139
Table D90. How often do you exercise or do physical activity that makes the muscles in your arms, legs, back or chest work hard? ° .....	140
Table D91. Body Mass Index (BMI) category ( <i>BMI calculated using data on weight and height</i> ) .....	141
Table D92. Does this person use nicotine or tobacco products?.....	142
Table D93. Do you have a key to your home? .....	143
Table D94. Do people let you know before they come into your home? .....	144
Table D95. Can you lock your bedroom if you want to?.....	145
Table D96. Do people let you know before coming into your bedroom? .....	146
Table D97. Do you have a place to be alone in your home?.....	147
Table D98. Can you be alone with friends or visitors at your home?.....	148
Table D99. Are there rules about having friends or visitors in your home? .....	149
Table D100. Do people read your mail or email without asking you first? .....	150
Table D101. Can you use the phone and internet when you want to?.....	151
Table D102. Do your staff treat you with respect?.....	152
Table D103. Have you ever participated in a self-advocacy group meeting, conference, or event? .....	153

Table D104. Have you voted? ( <i>in local, state, or federal election</i> ) .....	154
Table D105. Are there any places where you feel afraid or scared? ∞ .....	155
Table D106. If you ever feel afraid, is there someone you can talk to? .....	156

# I. NCI History and Activities

# Overview of National Core Indicators

In December 1996, the National Association of State Directors of Developmental Disabilities Services (NASDDDS), in collaboration with the Human Services Research Institute (HSRI), launched the Core Indicators Project (CIP). The aim of the project was to support state developmental disabilities operating agencies in the development and implementation of performance and outcome indicators—and related data collection strategies—so that they could measure service delivery system performance. This effort, now called National Core Indicators (NCI), strives to provide states with valid and reliable tools to help improve system performance and better serve people with intellectual and developmental disabilities and their families. Moreover, NASDDDS' active sponsorship of NCI facilitates pooled knowledge, expertise, and resources among the states.

In 1997, 15 states convened to discuss the scope and content of a potential performance measurement framework. Directors and staff from these 15 states worked to identify the major domains and sub-domains of performance, indicators, measures, and data sources. The original 61 indicators, developed through a consensus process, were intended to provide a system-level “snapshot” of how well each state was performing. The states were guided by a set of criteria that was designed to select indicators that were:

1. Measurable
2. Related to issues the states had some ability to influence
3. Important to all individuals they served, regardless of level of disability or residential setting.

During this initial phase, data collection protocols were developed and field-tested, including a face-to-face In-person Survey<sup>1</sup> (for individuals age 18 and older who were receiving services) and a mail-out Adult Family Survey (for families who have an adult family member living at home). Seven states volunteered to pilot test the indicators. Eight additional states served on the Steering Committee.

Since the initial field test, NCI has expanded its scope to include outcomes of services for children with intellectual and developmental disabilities and their families. In addition, NCI continues to develop and refine the indicators and expand state participation. For more information about NCI states, technical reports, and other resources, please visit <http://www.nationalcoreindicators.org>.

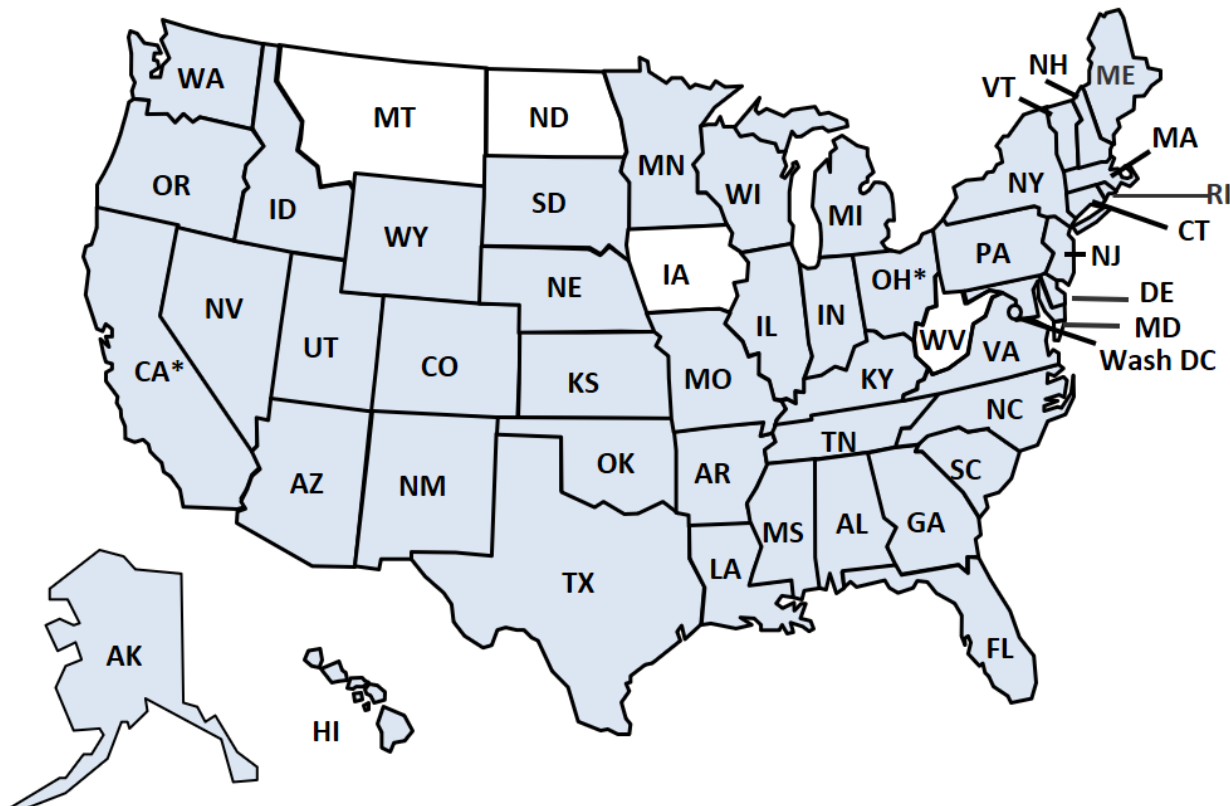

---

<sup>1</sup> Formerly named ‘Adult Consumer Survey’

## State Participation

During the 2017-18 data collection cycle, 46 states, the District of Columbia and 22 sub-state entities participated in NCI. State participation is entirely voluntary, and the participating states are shown in the chart below. NCI states do not participate in all surveys each year.

Figure A. NCI State Participation 2017-18

## The Core Indicators

The Core Indicators are the standard measures used across states to assess the outcomes of services provided to individuals and families. Indicators address key areas of concern, including employment, respect/rights, service planning, community inclusion, choice, and health and safety. An example of a Core Indicator would be, “The proportion of people who have a paid job in the community.” To see the entire list of Core Indicators, please visit <http://www.nationalcoreindicators.org/indicators>.

Each survey instrument is designed to measure certain Core Indicators. While most indicators correspond to a single survey question, a few refer to clusters of related questions. For example, the indicator that measures Community Inclusion (the proportion of people who regularly participate in everyday integrated activities in their communities) is measured by several survey questions that ask about several separate community activities.

The current set of performance indicators includes approximately 100 consumer, family, system, and health and safety outcomes—outcomes that are important to understanding the overall health of public developmental disabilities agencies. Indicators are organized across five broad domains: Individual Outcomes; Health, Welfare and Rights; Staff Stability and Competency; Family Outcomes; and System Performance. Each domain is broken down into sub-domains (see Figure B on the following page). Three data sources are used to assess outcomes: the In-person Survey, three Family Surveys, and a Staff Stability Survey (e.g., staff turnover).

The indicators have remained generally consistent over the last several years and thus can be used to analyze system-level trends over time. However, the NCI program is a dynamic effort that allows for measures to be added, dropped, or changed to reflect current and future priorities of participating states.

The data collection tools used to gather indicator data are regularly refined and tested to ensure they remain valid, reliable, and applicable to current issues within the field. Details on the design and testing of this tool are provided in the next section of this report.

## Domains and Sub-Domains

The following table lists the domains and sub-domains covered by the NCI In-person Survey indicators.

Figure B. In-person Survey Indicators: Domains and Sub-Domains

Domain	Sub-Domain	Concern Statement
<b>Individual Outcomes</b>	Work	People have support to find and maintain community integrated employment.
	Community Inclusion, Participation and Leisure	People have support to participate in everyday community activities.
	Choice and Decision-Making	People make choices about their lives and are actively engaged in planning their services and supports.
	Self Determination	People have authority and are supported to direct and manage their own services.
	Relationships	People have friends and relationships.
	Satisfaction	People are satisfied with the services and supports they receive.
<b>Health, Welfare, and Rights</b>	Safety	People are safe from abuse, neglect, and injury.
	Health	People secure needed health services.
	Medications	Medications are managed effectively and appropriately.
	Wellness	People are supported to maintain healthy habits.
	Respect/Rights	People receive the same respect and protections as others in the community.
<b>System Performance</b>	Service Coordination	Service coordinators are accessible, responsive, and support the person's participation in service planning.
	Access	Publicly funded services are readily available to individuals who need and qualify for them.

## How NCI Data Are Used

The Core Indicators provide information for quality management and are intended to be used in conjunction with other state data sources, such as risk management information, regional level performance data, results of provider monitoring processes, and administrative information gathered at the individual service coordination level. States typically use the indicator data to inform strategic planning, produce legislative reports, and prioritize quality improvement initiatives. Some states use NCI as a data source for supplemental performance measures in their home and community-based services (HCBS) waiver quality management systems and include the information

in support of evidentiary reports to the Centers for Medicare & Medicaid Services (CMS). Many states share the indicator data with stakeholder groups such as Quality Councils and use the stakeholder feedback to help set priorities and establish policy direction. It is also important to note that states do not use the information in a punitive way to sanction service providers, nor do they use the results to remediate individual issues (unless specifically requested by the participant or required by law as in the case of suspected abuse, neglect, or mistreatment).

For more information on how to use these data for quality improvement, please see this handbook: [Using National Core Indicators for Quality Improvement Initiatives.](#)<sup>2</sup>

## Caution and Limitations

This report does not provide benchmarks for acceptable or unacceptable levels of performance. Rather, it is up to each state to decide whether its score or percentage is an acceptable performance level. States that fall into the “Significantly Below NCI Average” tier on any scale or indicator are not necessarily underperforming; instead, this placement indicates only that the state’s scale score or indicator percentage is significantly lower than the average of all states—where “significantly” means “not due to chance.” The results tables throughout this report display states’ scores relative to one another and show which states tend to have similar results. Notably, the difference between a “Significantly Below NCI Average” state and the average across the other states may be very small, and it is up to public managers, policy-makers, and other stakeholders to decide whether a state’s result relative to the NCI Average suggests that changes or further investigation are necessary.

Moreover, the NCI Average should be interpreted as a multi-state “norm” that describes average levels of performance or satisfaction across the participating states. In some instances there are few significant differences among the states; this denotes that the majority of states are performing similarly. Instances in which several states’ results are especially high (considerably above the average level) indicate the levels of performance or satisfaction achieved in those states might define a level of performance that may serve as a guidepost for other states.

Data from previous years are not presented in this report. Comparisons of results from year to year should be made with caution: even slight changes in wording or response options of certain questions may affect comparability of results from one year to the next; the mix of participating states differs slightly each year and may affect the NCI Averages; and states draw new samples each year rather than following the same group of individuals.

Also critical to note is that differences by state in requirements for eligibility for DD services may also be reflected in differences in the NCI data.

## II. Methodology

---

# Administration

A key principle of NCI is the importance of gathering information directly from service recipients. The indicators are meant to apply to all individuals receiving services, regardless of disability type, and NCI administration protocols dictate that every person selected into the sample is given an opportunity to respond and no one is prescreened or predetermined to be unable to respond. Moreover, survey questions should not be marked “not applicable” on the basis of a person’s level of ability.

Information for the In-person Survey is collected via a direct conversation with the person receiving services. Additionally, background information is primarily collected from the individual’s record. Section I questions, which pertain to personal experiences and require subjective responses, may only be answered by the individual receiving services. Section II of the survey—which consists of objective questions on the individual’s involvement in the community, their choices, respect and rights, and their access to services—allows for the use of “proxy” or other respondents who know the individual well (such as a family member or friend).

## Proxy Respondents

Studies have found that the greatest discrepancies between individual and proxy responses occur when the information being collected is subjective (i.e., related to how a person feels; proxies would be aware of the correct answers only if the individual had previously expressed his or her feelings).<sup>3</sup> Questions relating to observable behaviors tend to have higher levels of agreement between the proxy and the individual. By excluding proxies, a large percentage of individuals (most of whom are unable to respond) would be unrepresented in the data. Thus, the NCI project determined at the outset that proxy respondents would be used, though only for specific questions and only in situations where the individual surveyed either could not effectively communicate with the surveyor or chose to have a proxy respondent.

As mentioned, the use of proxy respondents for the NCI tool is limited to questions in Section II, which relates to observable and/or measurable items: Community Inclusion,

---

<sup>3</sup> Magaziner, Jay, Sheryl Zimmerman, Ann L. Gruber-Baldini, J. Richard Hebel, and Kathleen M. Fox. "Proxy Reporting in Five Areas of Functional Status Comparison with Self-Reports and Observations of Performance." *American Journal of Epidemiology* 146.5 (1997): 418-28.

---

Choices, Respect/Rights, and Access to Needed Services. These questions deal with everyday occurrences on which others may reliably report. State records are also used to report objective data on an individual's health status and exam history as well as employment status; this information is collected in the Background Section of the survey.

NCI has taken steps to ensure that the responses gathered are as accurate as possible. First, it is important to make the questions as accessible as possible to increase participation by all individuals. NCI attempts to make the language in the In-person Survey as easy to understand as possible and includes suggested rephrasing for questions that may be nuanced or more difficult to understand. The NCI surveys are also routinely revised based on feedback from states, self-advocates, families, and surveyors who are administering the tool. Secondly, it is important to establish a set of standards for proxy respondents. NCI aims to increase the reliability of proxy responses by allowing only those people who know the individual well (family, friends, staff, etc.) to serve as proxy respondents. To avoid conflict, service coordinators are not allowed to respond as proxies. Further, if both the individual and a proxy respondent answer a question, the individual's answer is recorded so long as his/her answer is deemed reliable by the surveyor. Surveyors also keep track of who responds to each question—the individual or the proxy—and the proxy's relationship to the individual.

## Surveyor Training

States employ a variety of individuals to conduct the face-to-face meetings for the NCI In-person Survey. To avoid conflict, surveys cannot be administered by the individual's service provider, relative, personal case manager, staff member, or other close contact. Given this constraint, states often use university students, state staff, private contractors, advocacy organizations, and individuals with disabilities and their families to conduct the surveys.

HSRI and NASDDDS staff provide two sets of trainings each year: a more comprehensive training for new states and states with mostly or all new surveyors and a web-based refresher training for surveyors who have recently participated in the In-person Survey. Typically, instruction takes the form of a "train-the-trainer" session, whereby staff from the state's lead agency and/or those managing the surveyors provide training to new hires throughout the year. The goal of trainings is to provide a standardized training to ensure uniform application of the survey.

---

Trainings consist of a detailed review of the survey tool and an overview of general surveying techniques. Trainers are given a packet of standardized materials to be used at the on-site training sessions. An additional session reviews the process for entering survey data in the Online Data Entry Survey Application (ODESA).

## Criteria for Exclusion of Responses

All individuals selected in the survey sample are given an opportunity to participate in a face-to-face meeting. There are no prescreening procedures. Exclusion of responses occurs at the time of data analysis by HSRI, based on the criteria described below. There is no threshold of number of answers to be given in order to consider a survey complete.

Surveys are excluded from analysis of questions occurring in Section I if:

- 1) The surveyor indicated that the individual receiving supports did not respond validly to questions in Section I.
- 2) All questions in Section I were missing or marked n/a or Don't Know.

Surveys are excluded from analysis of questions occurring in Section II if:

- 1) The individual receiving supports was marked as the respondent to all questions in Section II but Section I was deemed invalid (for one of the reasons above).
- 2) No questions were answered in Section II.

The total number of valid In-person Surveys administered in 2017-18 was 25,671.

## Responses for Section I

Only individuals receiving services may answer questions in Section I. As shown in Figure D, 72.4% of individuals in the total 2017-18 sample were able to respond to Section I of the direct meeting; valid responses by state ranged from 44.8% to 95.3%.

## Responses for Section II

Section II allows for multiple respondents who know the individual well (e.g., family, friend, support worker) to provide answers. If an individual's responses were excluded from Section I in the final analysis, responses from Section II were also excluded if the individual was the only respondent to Section II. For 2017-18, the valid response rate (proxies included) to Section II was 99.4%.

---

## Sampling

Each state is instructed to attempt to complete a minimum of 400 surveys with a random sample of individuals over the age of 18 who are receiving at least one publicly funded service besides case management. A sample size of 400 guarantees valid comparisons to be made across states with a 95% confidence level and a margin of error of +/- 5%, no matter how large the service population size. A 95% confidence level and a margin of error of +/- 5% is mandatory for each state's sample to be included in this report. Most states sample more than 400 individuals to account for refusals and surveys that may be deemed invalid. Figure D presents the number of surveys completed by state. A more detailed description of each state's sampling strategy can be found in Appendix C.

## Why do we ask states to collect 400 surveys?

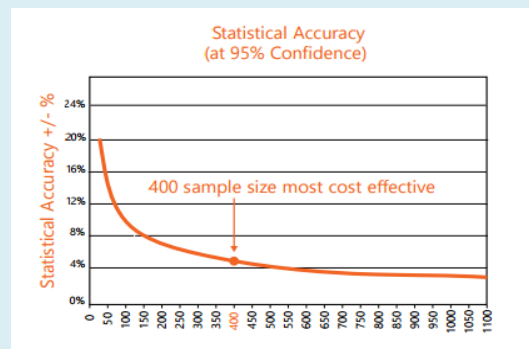

When NCI asks states to pull a representative sample of 400 surveys, the aim is to compile a dataset that can provide a high level of statistical accuracy. This means that the goal is to create a dataset that can be used to make accurate inferences about the entire population of people using public services in each state. In order to do this, we ask each participating state to pull a sample that reaches the 95% confidence level/5% margin of error threshold; for most states, this sample size is 400.

A sample size that reaches the 95% confidence level/5% margin of error threshold means that if you sampled that number of people from the same population several times, 95% of your responses would fall within 5% above or below the actual percentages. So using this sample size we can assume relative accuracy. The larger the sample size, the smaller the margin of error and the greater the accuracy.

Statistical accuracy is largely a function of sample size. The larger the sample size, the greater the statistical accuracy of results (lower margin of error). However, gains in statistical accuracy are not proportional to increases in sample size. There are diminishing returns. For example, for a large total population, if the sample size increases by 100, and then by another 100, and then by another 100, the statistical accuracy might increase by 5%, then by 3%, then by 1%.

As a result, the 400 sample size gives a statistical accuracy of  $\pm 5\%$  and is considered the most “cost effective” sample size for large-scale surveys. Meaning, you could sample more people, but the increase in statistical accuracy those “extra” people would provide is minimal, and not worth the money.

To play around with this, take a look at <http://www.raosoft.com/samplesize.html> NCI requires a margin of error at most 5% and a 95% confidence level. As you increase the population size (in our case, this represents the service population), you’ll see that the recommended sample size does not increase proportionally.

## III. Data Analysis

---

## Data Management and Analysis

HSRI coordinates the NCI data management and analysis. All states enter data into the Online Data Entry Survey Application (ODESA) system; HSRI staff subsequently download the data into an SPSS data file. This data file is then “cleaned” (reviewed for completeness and compliance with standard NCI formats) and invalid responses are eliminated. Files from individual states are then merged into a single SPSS file. The merged file from 2017-18 was used for all analyses in this report.

Below is a summary of the statistical procedures used to analyze the In-person Survey data.

### Weighting

Statistically, the term “average” refers to a calculated central or middle value of a set of numbers. In NCI reports, we use “NCI average” to demonstrate the typical performance of all the states that conducted the survey. Prior to the 2016-17 survey cycle, the NCI average was calculated as the simple arithmetic mean of all state means (an approach known as “average of averages”). Last year, the approach was enhanced to consider the relative numbers of people receiving services through participating states’ systems. The NCI averages contained in this report are “weighted” means; their calculations reflect the relative population sizes of participating states, as well as the sample sizes.

Applying statistical weights allows a state that provides services to a larger number of people (but is represented in the data by a sample of the same size as other states) to have a higher influence on the overall NCI average—that is, the state’s contribution to the NCI average is proportional to its service population. The weights used in calculations for this report were developed using each participating state’s number of survey respondents and its total survey-eligible population.

When a state’s sampling strategy is to identify and interview survey participants using simple random sampling or proportional stratified random sampling, each completed survey in the state gets assigned the same weight. In some cases, when a state’s sampling strategy departs markedly from simple random or proportional, it may be necessary for completed surveys in the state to be assigned different weights based on which sampling strata they correspond to. For example, if a state intentionally oversampled one or more of its sub-populations or geographical regions to be disproportionately represented in the survey sample, it may be necessary to develop and apply different weights for surveys

---

completed in those sub-populations or regions. The procedure for calculating weights is similar but uses the number of completed surveys and service population sizes in each stratum (i.e., sub-population or region) separately. **WI and CA are weighted in this way in 2017-18.**

## Significance Testing

For each of the non-adjusted items in this report, each state's percentage was compared to the weighted NCI Average (described above), and the differences between the two were tested for both **statistical significance** as well as **effect sizes**. Effect sizes are used in addition to statistical significance because statistical significance of a state's result depends, in part, on the size of the state's sample: the larger the sample, the more likely it is that even a small difference will be found *statistically* significant. A statistically significant difference for a state with a large sample size, in and by itself, does not necessarily mean there is a *practically* significant difference. The inclusion of effect sizes as a new criterion allows us to present "meaningfully significant" results, which take into consideration the magnitude or size of the differences.

The state percentages in this report are categorized into one of the three classes:

1. **Significantly above the NCI average**, where the difference between the state's percentage and the weighted NCI average a) was in favor of the state, b) was statistically significant (i.e.,  $p < .01$ ), **and** c) met the effect size criterion (i.e., Cohen's  $d > 0.2$ , see below for details);
2. **Within the NCI average range**, where the difference between the state's percentage and the weighted NCI average was a) not statistically significant (i.e.,  $p \geq .01$ ), **or** b) did not meet the effect size criterion (i.e., Cohen's  $d \leq 0.2$ );
3. **Significantly below the NCI average**, where the difference between the state's percentage and the weighted NCI average a) was in favor of the NCI average, b) was statistically significant (i.e.,  $p < .01$ ), and c) met the effect size criterion (i.e., Cohen's  $d > 0.2$ );

For all unadjusted outcome data, tables are formatted so that all states are listed in descending order of percentage and are categorized as statistically significantly above the NCI Average, within the range of the NCI Average, and significantly below the NCI Average. No symbol was used for the state's percentage being "within" the NCI average range due to lack of statistical significance (i.e.,  $p \geq .01$ ).

---

## Technical Details

The comparisons were done through one sample T-tests using the weighted NCI average as the benchmark. A conservative cut-off point (alpha) of  $p < .01$  was used to detect statistically significant differences. Effect sizes are calculated using the formula: Cohen's  $d = \frac{2t}{\sqrt{df}}$ . A cutoff point of Cohen's  $d = 0.2$  was chosen for the effect size to be considered "meaningfully significant," following the standard interpretation offered by Cohen (1988) that Cohen's  $d$  of 0.8 = large, 0.5 = moderate, and 0.2 = at least a small effect.

## Outcome Adjustment

Outcome adjustment or "risk adjustment" is a statistical process used to control for differences in the individual characteristics of people who completed the NCI Survey across states. This procedure allows for more legitimate state comparisons by effectively "leveling the playing field." This analysis helps account for the fact that states have different eligibility definitions for services and may have samples with different characteristics. Only those indicators that are likely to be affected by individual characteristics were adjusted (e.g., indicators in the Choice sub-domains). For example, a person who has limited mobility and is older may be less likely to choose where they live. On the other hand, such characteristics should not affect whether a person has friends or staff who are respectful.

The indicators are risk-adjusted using the following characteristics: age, level of intellectual disability, level of mobility, and whether any behavioral supports are needed to prevent self-injury, disruptive, or destructive behavior. Risk adjustment was only done on Choice items for this report. In prior years, Community Inclusion items were also risk adjusted; however, due to the change in reporting structure, those items are no longer risk adjusted. Beginning in 2014-15, primary means of expression, health, and mental illness/psychiatric diagnosis were not used as risk-adjustors since they were not significant predictors of outcomes in the survey questions. In this report, results for indicators that were adjusted are labeled as such, and unadjusted results for these indicators are presented in Appendix D.

Outcome adjustment was performed using logistic regression for the choice indicators and linear regression for the choice indicators. This statistical analysis produces a predicted value that one would expect to observe given the individual's characteristics. The state's average observed rate (i.e., the state average prior to risk-adjustment) was adjusted by the average predicted rate to produce the risk-adjusted rate. As a result of this procedure, state

---

differences in adjusted values reflect true state differences rather than differences due to the demographic or characteristic makeup of state service populations.

## Scale Development

Scales are used to combine responses from multiple similar questions into one variable. In this way we can measure an overarching concept rather than specific elements of the concept. For the Adult Consumer Survey, scales are used for the Choice and Decision-Making sub-domain. To create a scale, statistical tests are required to ensure that the multiple items share common properties. Scales were created using factor analysis.

The Choice and Decision-Making sub-domain was divided into two scales: Life Decisions and Everyday Choices; additionally, one Community Inclusion scale was produced by adding four of the items. Scales were created by averaging the items within each category.<sup>4</sup>

Higher scale scores represent higher levels of choice. The scales were also risk-adjusted. Each scale's reliability was assessed using Cronbach's alpha. The scales had an adequate level of internal consistency and reliability.

## Collapsing Data

For many of the indicators in this report, only "yes" responses are analyzed and reported for state to state comparisons and significance testing. However, there are several indicators for which the "yes" response was collapsed with the middle response (for example, a "sometimes" response, or a "some input" response) to form the "yes" indicator category which was then analyzed and subsequently reported. For example, for choice indicators, responses "person chose" and "person had some input" were collapsed into one "yes, person chose" category. For those indicators, the two responses were considered to be equally indicative of a positive outcome. Appendix B contains the collapsing and recoding rules for all indicators and risk-adjustment variables.

---

<sup>4</sup> Indicators used for scales are listed in the corresponding sections.

- *B: Recoding instructions*
- *C: Sampling procedures*
- *D: Unadjusted and un-collapsed data*

# Appendix A

## Survey changes from 2016-17 to 2017-18

Table A1. Survey Changes 2016-17 to 2017-18: Pre-Survey and Background Information

Question	Change
<b>Name of Survey tool:</b> ADULT CONSUMER SURVEY	ADULT IN-PERSON SURVEY
<b>SC-1 to SC 4</b>	Added page at beginning of survey collecting “meta data”
SC-2 Face-to-face Scheduling Status : <b>If the face-to-face survey was not scheduled, please enter the reason why:</b> <ul style="list-style-type: none"> <li>○ Contact information is incorrect</li> <li>○ Contact information is correct, but the person could not be reached</li> <li>○ Refused by individual receiving supports</li> <li>○ Refused by guardian and/or parent</li> <li>○ Deceased</li> <li>○ Other reason survey could not be scheduled:</li> </ul>	Added question about survey status to track unscheduled surveys.

Question	Change
<p><b>I-6 If this person has a legal/court-appointed guardian, what is the guardian’s relationship to the individual?</b></p> <ul style="list-style-type: none"> <li>○ 98. Not Applicable</li> <li>○ Family</li> <li>○ Friend</li> <li>○ Employee of state or guardianship agency</li> <li>○ Financial institution (e.g., bank)</li> <li>○ Non-profit guardianship agency</li> <li>○ For-profit guardianship agency</li> <li>○ Other</li> <li>○ 99. Don’t know</li> </ul>	<p>Added response options</p>
<p><b>BI-28 Has this person received screening for colorectal cancer?</b></p> <ul style="list-style-type: none"> <li>○ 98. Not applicable – individual is under age 50 or over age 75</li> <li>○ Colonoscopy within the past 10 year</li> <li>○ 2.Flexible sigmoidoscopy within the past 5 years</li> <li>○ Testing for colorectal cancer with stool sample, using a Fecal Occult Blood Test (FOBT) or Fecal Immunochemical Test (FIT) in the past year</li> <li>○ Has never had screening for colorectal cancer or screening was more than 10 years ago</li> <li>○ 99. Don't know</li> </ul>	<p>Question and response options changed</p>

**BI-36 How would you characterize the place where this person lives?**

**CHECK ONE.**

Intermediate care facility for persons with I/DD (ICF/IID) or other institutional setting

- 1. ICF/IID, 4-6 residents with disabilities
- 2. ICF/IID, 7-15 residents with disabilities
- 3. ICF/IID, 16 or more residents with disabilities
- 4. Nursing facility
- 5. Other specialized institutional facility

Group residential setting (e.g., group home).

*Group residential settings are owned, operated and/or controlled by a service provider agency. ('Controlled' means the service provider is also connected to the property by lease or ownership. If the person changed their service provider agency, would they need to move? If "YES", as the residence is considered provider owned, operated and/or controlled.)*

- 6. Group living setting, 2-3 people with disabilities.
- 7. Group living setting, 4-6 people with disabilities.
- 8. Group living setting, 7-15 people with disabilities.

Own home or apartment.

- 9. Lives in own home or apartment; may be owned or rented, or may be sharing with roommate(s) or spouse.
- 10. Parent/relative's home (may include paid services to family for residential supports)

Foster or host home

- 11. Foster care or host home (round-the-clock services provided in a single-family residence where two or more people with a disability live with a person or family who furnishes services)
- 12. Foster care or host home (round-the-clock services provided in a single-family residence where only one person with a disability lives with a person or family who furnishes services—sometimes called shared living.)

Other

- 13. Homeless or crisis bed placement
- 14. Other
- 99. Don't know

Added highlighted clarification

Table A2. Survey Changes 2016-17 to 2017-18: Employment

Question	Change
<p><b>Employment matrix:BI-43-48</b> b) option</p>	<p>Now clarifies that NCI is asking about the number of hours spent doing job/activity</p>
<p><b>Employment matrix:BI-43-48</b> c) option</p>	<p>Now asks about HOURLY wages (instead of biweekly). Except for Paid work in a facility based setting (BI-47) which still asks about total wages (to account for piece-work)</p>
<p><b>BI-46 Paid work in a community business that primarily hires people with disabilities.</b> <i>In this job, the employees with disabilities interact with the non-disabled population; this job is NOT in a traditional sheltered workshop and is NOT an enclave. Some examples include bakeries, carwashes, thrift stores, etc.</i></p>	<p>New category</p>
<p><b>BI-47 Paid work performed in a facility-based setting</b> <i>(e.g., traditional sheltered workshop or work activity center; the location has been developed specifically to provide work activity exclusively for people with disabilities and people may be paid sub-minimum wage. )</i></p>	<p>Description clarified</p>

Table A3. Survey Changes 2016-17 to 2017-18: Funding

Question	Change
<p><b>BI-56 What is the funding source for supports for this person? (Please obtain this information from a state data system or official record if possible.)</b></p> <ul style="list-style-type: none"> <li>○ 1. ICF/IID (Intermediate Care Facility for individuals with intellectual disabilities) Funded</li> <li>○ 2. Medicaid HCBS Waiver-Funded Services</li> <li>○ 3. Medicaid State Plan Funded Services</li> </ul>	<p>Now a “check all that apply” Response option 4 has been clarified</p>

<ul style="list-style-type: none"> <li>○ 4. Exclusively supported by State Funds (no Medicaid services beyond health care)</li> <li>○ 99. Don't know</li> </ul>	
---	--

Table A4. Survey Changes 2016-17 to 2017-18: Section II

Question	Change
<b>Community Inclusion, participation and leisure: The “who did you go with” questions</b>	Separated out “friends” and “family” as disparate response options
<b>67. Who chose (or picked) your day program or workshop? (<i>Did you help make the choice?</i>)</b>	This question has been changed to specify that the question should address the day program and/or workshop. Not just regular activities done during the day
<b>78. How many times per week do you do moderate physical activity or exercise in which you are active for at least 10 minutes at a time? For example, how often do you go running, fast walking, dancing, biking, swimming and/or play basketball for at least 10 minutes at a time?</b>  <i>Other respondent: How many times per week does this person do sports, exercise or physical activity for at least 10 minutes? (Moderate physical activity is an activity that causes some increase in breathing or heart rate. Examples include but are not limited to brisk walking, swimming, bicycling)</i> <b>Respondent: 1-individual 2-family/friend 3-staff 4-other</b> <ul style="list-style-type: none"> <li>○ 1. None</li> <li>○ 2. One or two times</li> <li>○ 3. Three or four times</li> <li>○ 4. Five or more times</li> <li>○ 99. Don't know, no response, unclear response</li> </ul>	Physical activity questions changed to reflect federal guidelines more closely.
<b>79. How many times per week do you do physical activity or exercise that makes the muscles in your arms, legs, back, and chest work hard – like lifting weights, pushups, sit-ups, manual labor, physical therapy, etc.?</b>  <b>Other respondent: How many times per week does this person do physical activity designed to work his/her muscles?</b> <b>Check ONE.</b>	Physical activity questions changed to reflect federal guidelines more closely.

**Respondent: 1-individual 2-family/friend 3-staff 4-other**

- 1. None
- 2. One or two times
- 3. Three or four times
- 4. Five or more times
- 99. Don't know, no response, unclear response

**Self-Directed Supports module:**

Changed questions 83-88 so that they're asked of the person OR THE PROXY. We are attempting to assess the self-direction experience, about which a proxy may be able to provide personal insight.

---

## Appendix B

### Rules for Recoding and Combining Variables to Compute Core Indicators

**Please note**, an expanded guide for variable reporting (including information on how data are filtered) is available upon request through HSRI. Please email Dorothy at [dhiersteiner@hsri.org](mailto:dhiersteiner@hsri.org) for more info.

Table B1. Background Information Variables

## Demographics

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Urban/Rural	METROCAT	'Don't Know' shown	No
Age (Variable used for risk adjustment)	AGE  <i>Survey asks for month and year of birth. Age calculated.</i>		No
Age Category	Age_categ  <i>Categorical variable created for the following categories:</i> <ul style="list-style-type: none"> <li>• 18 thru 22</li> <li>• 23 thru 34</li> <li>• 35 thru 54</li> <li>• 55 thru 74</li> <li>• 75 and above.</li> <li>• Unknown</li> </ul>		No
Gender	GENDER  <i>In 16-17 added "other" response option</i>		No
Marital Status	MARSTAT	'Don't Know' shown	No
Person is a parent	PARENT15_1 PARENT15_2 PARENT15_3 PARENT15_99	'Don't Know' shown	No
Race	RACE  <i>Categorical variable created using variables:</i> RACE15_AMERIN RACE15_ASIAN RACE15_BLACK RACE15_HAWAII RACE15_WHITE RACE15_LATINO RACE15_OTHER RACE15_DK <i>"Two or more races" variable created by identifying the cases that have at least two races reported</i>	'Don't Know' shown	No
Type of Residence	TYPEHOME16	'Don't Know' shown	No
Length of residence	RESIDLEN17	'Don't Know' shown	No
Person's residence owned or controlled by provider agency	CONTPROV16	'Don't Know' shown	No
Person named on lease	LEASE16	'Don't Know' shown	No
Person owns his or her own home	OWNHOME15	'Don't Know' shown	No
Diagnosis of ID	DIAGMR	'Don't Know' shown	No
Level of ID (Variable used for risk adjustment)	LEVELMR08	Unknown and unspecified shown; filtered for those with a diagnosis of ID (DIAGMR=2)	No

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?

Table B2. Outcome Variables -- Rules for Analysis

**Sub-domain: Choice and Decision-making**

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who reported they chose or had some input in choosing where they live <i>if not living in the family home</i> (Adjusted Variable)	CHOSHOME2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0) and for residence type (typehome16 not equal to 5 (parent or relative's home)) <b>Risk adjusted</b>	No
Proportion of people who reported they chose or had some input in choosing their roommates <i>if not living in the family home</i> (Adjusted Variable)	HOUSEMATES2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0) and for residence type (typehome16 not equal to 5 (parent or relative's home)) <b>Risk adjusted</b>	No
Proportion of people reported to have a job in the community and who reported they chose or had some input in choosing their job* (Adjusted Variable) * reported for those who were determined to have a paid community job from Background section	CHOSJOB2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0) and for PAIDCOMMJOB_y =1 <b>Risk adjusted</b>	No
Proportion of people who reported they have a day program or activity and chose or had some input in choosing their day program or activity (Adjusted Variable)	CHOOSDAY2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0) <b>Risk adjusted</b>	No
Proportion of people who reported they choose or help decide their daily schedule (Adjusted Variable)	SCHEDULE2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0) <b>Risk adjusted</b>	No
Proportion of people who reported they choose or help decide how to spend free time (Adjusted Variable)	FREETIME2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0) <b>Risk adjusted</b>	No
Proportion of people who reported they chose or help decide what to buy with their spending money (Adjusted Variable)	CHOOSBUY2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0) <b>Risk adjusted</b>	No
Proportion of people who reported they can change their case manager/service coordinator	CHANGECM2 <i>Recoded variable in which response options are:</i> 0 no 1 had at least some input	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who reported they chose or were aware they could request to change their staff	CHOOSSTAF2 <i>Recoded variable in which response options are:</i>  0=no 1 chose staff or were aware they could request to change staff	Filtered for Section II (INVL_CR2_15=0) <b>Risk adjusted</b>	Yes

**Sub-domain: Work**

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who were reported to have a job in the community* * reported for those who were determined to have a paid community job from Background section	PAIDCOMMJOB_y <i>Variable created indicating those who have at least one of the following marked "yes"</i> 1) PAIDCOMMJOBIND15 2) PAIDCOMMJOBGRP15 3) PAIDCOMMBIZ <i>Creates and makes DK missing</i>		Yes
Proportion of people who were reported to have a job in the community by type of employment support* * reported for those who were determined to have a paid community job from Background section	commwork_type_Individual commwork_type_Group  Variables created to identify types of paid jobs in the community and whether public support is received for that job. Variables created using 1) PAIDCOMMJOBIND15 and PCJISERV15 2) PAIDCOMMJOBGRP15 3) PAIDCOMMBIZ	Filtered for PAIDCOMMJOB_y =1	No
Average number of bi-weekly hours by type of community employment support	Filter separately for commwork_type_Individual=1 commwork_type_Individual=2 and commwork_type_Group=1 and PAIDCOMMBIZ=2  Then compare means with the variable PCJIHOURS15 or PCJGHOURS15 (for commwork_type_group=1)	Filtered for PAIDCOMMJOB_y =1	No
Average hourly wages by type of community employment support	Filter separately for commwork_type_Individual=1, commwork_type_Individual=2 and commwork_type_Group=1 and PAIDCOMMBIZ=2  Then compare means with the variable PCJIWAGES17 or PCJGWAGES17 (for commwork_type_group=1) and PCBIZWAGE (for Paidcommbiz=2)	Filtered for PAIDCOMMJOB_y =1	No
Average length of employment in current job for people who were reported to have a job in the community	Calculated variable using JOBYRS and JOBMOS to equal total months		No
Proportion of people who were reported to have a job in the community and received paid timeoff	PDTIMEOFF2 <i>Recoded variable in which response options are:</i> 0 'no' 1 'receives paid time off.'	Filtered for PAIDCOMMJOB_y =1	Yes
Proportion of people who were reported to have a job in the community in the four most common types of employment	JOBTYP	Filtered for PAIDCOMMJOB_y =1	No

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who were reported not to have a job in the community and who reported they would like a job in the community* ("yes" responses only) *reported for those who were determined to not have a community job from Background section	LIKEAJOB2 <i>Recoded variable in which response options are: 0 no, in-between 1 yes.</i>	Filtered for Filtered for PAIDCOMMJOB_y =0 and Section I valid (INVL_CR1_15=0)	Yes
Proportion of people who were reported to have community employment as a goal in their service plan	IEGOAL2 <i>Recoded variable in which response options are: 0 'no' 1 'integrated employment in service plan'.</i>		Yes
Proportion of people who report taking classes or training to help get a job, or get a better job	TRAINING2 <i>Recoded variable in which response options are: 0 'no' 1 'yes'.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported going to a day program or regular activity	HAVEDAYACT2 <i>Recoded variable in which response options are: 0 'no' 1 'yes'.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported doing volunteer work	VOLUNT2 <i>Recoded variable in which response options are: 0 'no' 1 'yes'.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes

### Sub-domain: Self Determination

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who were reported to be using a self-directed supports option	SELFDRCT2 <i>Recoded variable in which response options are: 0 'no' 1 'yes'.</i>		Yes
Proportion of people self-directing who reported they make decisions about how budget for services is used	BUDGDEC2 <i>Recoded variable in which response options are: 0 no 1 yes.</i>	Filtered for Section 2 (INVL_CR2_15=0) and SELFDRCT2=1	Yes
Proportion of people self-directing who reported participates in decisions about using budget, hiring staff or managing services ("yes" responses only)	PARTDEC16	Filtered for Section 2 (INVL_CR2_15=0) and SELFDRCT2=1	No
Proportion of people self-directing who reported they hire and manage their staff	HIRESTAFF2 <i>Recoded variable in which response options are: 1 Yes 0 No, maybe</i>	Filtered for Section 2 (INVL_CR2_15=0) and SELFDRCT2=1	Yes

Proportion of people self-directing who reported they have enough help deciding how to use their budget/services	ENUFHELP2 <i>Recoded variable in which response options are:</i> 1 Yes, have enough help 0 No, want more help or maybe, not sure.	Filtered for Section 2 (INVL_CR2_15=0) and SELFDRCT2=1	Yes
Proportion of people self-directing who reported they receive information about money that's left in budget	ENUFINFO2 <i>Recoded variable in which response options are:</i> 1 Yes 0 No, maybe, not sure.	Filtered for Section 2 (INVL_CR2_15=0) and SELFDRCT2=1	Yes
Proportion of people self-directing who report they get enough information about their budget/services and information is easy to understand	INFOUNDERST2 <i>Recoded variable in which response options are:</i> 1 Yes 0 No, maybe, not sure.	Filtered for Section 2 (INVL_CR2_15=0) and SELFDRCT2=1 and ENUFINFO15=2 or ENUFINFO15=3	Yes

### Sub-domain: Community Inclusion, Participation and Leisure

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who report being able to go out and do the things they like to do (yes responses only)	GOOUT2 <i>Recoded variable in which response options are:</i> 0 No, in-between 1 yes.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who report being able to go out and do the things they like to do enough (yes responses only)	GOOUTENOUGH2 <i>Recoded variable in which response options are:</i> 0 No 1 Yes.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who report that they have enough things to do at home (yes only)	HOMETODO2 <i>Recoded variable in which response options are:</i> 0 Not enough, in the middle 1 Yes	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported going shopping at least once in the past month	SHOPPING15_2 <i>Recoded variable in which response options are:</i> 0 no, 0 times 1 at least once in past month.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who reported going errands at least once in the past month	ERRANDS15_2 <i>Recoded variable in which response options are:</i> 0 no, 0 times 1 at least once in past month.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who reported going entertainment at least once in the past month	ENTERTAN15_2 <i>Recoded variable in which response options are:</i> 0 no, 0 times 1 at least once in past month.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who reported going out to eat at least once in the past month	EATOUT15_2 <i>Recoded variable in which response options are:</i> 0 no, 0 times 1 at least once in past month.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who reported going to religious services or spiritual practice at least once in the past month	RELIGION15_2 <i>Recoded variable in which response options are:</i> 0 no, 0 times 1 at least once in past month.	Filtered for Section II (INVL_CR2_15=0)	Yes

Proportion of people who reported participating in community groups (yes response only)	Commact2 <i>Recoded variable in which response options are:</i> 0 no 1 yes	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who reported having gone on vacation in the past year (yes only)	VACATION2 <i>Recoded variable in which response options are:</i> 0 no 1 yes	Filtered for Section II (INVL_CR2_15=0)	Yes

### Sub-domain: Relationships

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who reported they have friends who are not staff or family members ("yes, not staff or family" only)	HASFRNDS2 <i>Recoded variable in which response options are:</i> 0 no, only staff or family 1 yes, not staff or family.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they have a best friend (may be staff or family)	BESTFRIEND2 <i>Recoded variable in which response options are:</i> 0 No, does not have a best friend 1 Yes, has a best friend.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they have family they see and the support needed to see their family when they want to ("yes" responses only)	SEEFAMILY2 <i>Recoded variable in which response options are:</i> 0 no, sometimes 1 yes, whenever wants to, or chooses not to see family.	Filtered for Section I (INVL_CR1_15=0) and only analyzed for people not living with parent/family	Yes
Proportion of people who reported they have friends (may be staff or family) and the support needed to see their friends when they want to ("yes" responses only)	SEEFRNDS2 <i>Recoded variable in which response options are:</i> 0 No, often unable to see friends, Sometimes cannot see friends when wants 1 Yes.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who want more help to keep in contact with friends	FRNDSHELP2 <i>Recoded variable in which response options are:</i> 0 No, 1 Yes, maybe.	Filtered for Section I (INVL_CR1_15=0)	Yes
Reasons why can't see friends	WHYSEEFRNDS15	Filtered for Section I (INVL_CR1_15=0) and SEEFRNDS2=0	No
Proportion of people who reported they had other ways of communicating with friends ('yes, but not often' and 'yes, often' responses)	FRNDSCOMM2 <i>Recoded variable in which response options are:</i> 0 No, Sometimes 1 Yes	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they can go on a date if they want to or can date with some restriction ("yes, can date" responses)	CANDATE2 <i>Recoded variable in which response options are:</i> 0 No, Yes but with restrictions 1 Yes or is married living with partner	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they feel lonely at least half the time** ("often" responses)	LONELY2_15 <i>Recoded variable in which response options are:</i> 0 no, not often, or sometimes 1 yes, often.	Filtered for Section I (INVL_CR1_15=0)	Yes

### Sub-domain: Satisfaction

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who reported they like their home ("yes" responses only)	LIKEHOME2  <i>Recoded variable in which response options are: 0 no, in-between 1 yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who report disliking where they live for reasons indicated.	DONTLIKE15_1 DONTLIKE15_2 DONTLIKE15_3 DONTLIKE15_4 DONTLIKE15_5 DONTLIKE15_6 DONTLIKE15_7 DONTLIKE15_10 DONTLIKE15_11 DONTLIKE15_OTHER DONTLIKE15_99	Filtered for Section I (INVL_CR1_15=0)	No
Proportion of people who reported they would like to live somewhere else ("yes" responses only)	HOMEELSE2  <i>Recoded variable in which response options are: 0 no, in-between 1 yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who were reported to have a job in the community and who reported they like where they work ("yes" responses only)* * reported for those who were determined to have a paid community job from Background section	LIKEJOB2  <i>Recoded variable in which response options are: 0 no, in-between 1 yes.</i>	Filtered for Section I (INVL_CR1_15=0) and for PAIDCOMMJOB_y =1	Yes
Proportion of people who were reported to have a job in the community and who reported they want to work somewhere else* ("yes" responses only) * reported for those who were determined to have a paid community job from Background section	JOBELSE2  <i>Recoded variable in which response options are: 0 no, in-between 1 yes.</i>	Filtered for Section I (INVL_CR1_15=0) and for PAIDCOMMJOB_y =1	Yes
Proportion of people who reported that they want to go to their day program less ("less" responses only)	LESSDAYACT16	Filtered for Section I (INVL_CR1_15=0) and haveadayact2=1	
Proportion of people who reported that services and supports were helping them live a good life ("yes" responses only)	GOODLIFE2  <i>Recoded variable in which response options are: 0 No, in between 1 Yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes

### Sub-domain: Service Coordination

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who reported they met their service coordinator/case manager ("yes" responses only)	KNOWSCM2 <i>Recoded variable in which response options are: 0 maybe, no 1 yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported their service coordinator/case manager asks them what they want ("yes" responses only)	ASKIMPOR2 <i>Recoded variable in which response options are: 0 sometimes, no 1 yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported their service coordinator/case manager gets them back right away ("yes" responses only)	GETSBACK2 <i>Recoded variable in which response options are: 0 No, sometimes 1 Yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported taking part in the last service planning meeting ("yes" responses only)	MSPLAN2 <i>Recoded variable in which response options are: 0 No 1 Yes, or had option but chose not to.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported that they understood what was discussed in last service planning meeting ("yes" responses only)	PLANUNDRSTND2 <i>Recoded variable in which response options are: 0 No, in-between 1 Yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported that service planning meeting included people the person wanted to be there ("yes" responses only)	PEOPLEWANT2 <i>Recoded variable in which response options are: 0 No, in-between 1 Yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported that they were able to choose the services that were received as part of service plan ("yes" responses only)	PLANCHOOSE2 <i>Recoded variable in which response options are: 0 No, had some input 1 Yes</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported support workers come and leave when they are supposed to ("yes" responses only)	SWORKCOME2 <i>Recoded variable in which response options are: 0 No, maybe not sure 1 Yes.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they always they have a way to get places when they need to go somewhere ("yes" responses only)	TRANSPORT2 <i>Recoded variable in which response options are: 0 No almost never, sometimes 1 Yes, almost always.</i>	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they always they have a way to get places when they want to do something for fun ("yes" responses only)	GETPLACES2 <i>Recoded variable in which response options are: 0 No almost never, sometimes 1 Yes, almost always.</i>		Yes

**Sub-domain: Access**

<b>Table label in body of report</b>	<b>Variable name used in calculation</b>	<b>How it's filtered in the body of the report</b>	<b>Tested for significance?</b>
Proportion of people who reported their staff have adequate training to meet their needs (“yes” responses only)	STFTRN2  <i>Recoded variable in which response options are: 1 yes 0 no, maybe.</i>	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who report needing additional services	ADDSERVEDSCCM ADDSERVEDRESFAM ADDSERVEDTR ADDSERVEDJOBS13 ADDSERVEDDAY ADDSERVEDEDU ADDSERVEDHC ADDSERVEDDC13 ADDSERVEDHOUS ADDSERVEDRES ADDSERVEDSOC ADDSERVEDCOMM ADDSERVEDENV ADDSERVEDBENE ADDSERVEDOTH	Filtered for Section II (INVL_CR2_15=0)	No

**Sub-domain: Health**

<b>Table label in body of report</b>	<b>Variable name used in calculation</b>	<b>How it's filtered in the body of the report</b>	<b>Tested for significance?</b>
Proportion of people who were reported to have a primary care doctor	PRIMDOC2_woDK  <i>Removes DK responses and Recoded variable in which response options are: 0 'doesn't have a primary doc' 1 'has a primary doc'.</i>		Yes
Proportion of people who were reported to be in poor health (“poor health” response only)	Health_poor  <i>Recoded variable in which response options are: 0 'excellent or very good' or 'fairly good' 1 poor</i>	INVL_CR2_15=0	Yes
Proportion of people who were reported to have had a complete physical exam in the past year (“within the past year” responses)	physexam2  <i>Recoded variable in which response options are: 0 'not in past year' 1 'in past year'.</i>		Yes
Proportion of people who were reported to have had a dental exam in the past year (“within the past year” or “within the past six months” responses)	dentvis2  <i>Recoded variable in which response options are: 0 'not in past year' 1 'in past year'.</i>		Yes
Proportion of people who were reported to have had an eye exam in the past year (“within the past year” responses)	EYEEEXAM2  <i>Recoded variable in which response options are: 0 'not in past year' 1 'in past year'.</i>		Yes
Proportion of people who were reported to have had a hearing test in the past five years (“within the past five years” responses)	HEARTEST2  <i>Recoded variable in which response options are: 0 'not in the past 5 years'</i>		Yes

Proportion of women over age 21 who were reported to have had a Pap test in the past three years (“within the past three years” or less responses)	PAPTEST2  <i>Recoded variable in which response options are: 0 more than 3 years 1 in past 3 years.</i>	Filtered for GENDER=2 and age>=21	Yes
Proportion of women over 40 who were reported to have had a mammogram test in the past two years (“within the past two years” or “within past year” responses)	MAMMO2  <i>Recoded variable in which response options are: 1 'in last 2 years' 0 'more than 2 years'.</i>	Filtered for GENDER=2 and AGE>=40	Yes
Proportion of people 50 or over who were reported to have had a colorectal cancer screening in the past year (“within the past year” responses)	CCSCREEN17_98 CCSCREEN17_1 CCSCREEN17_2 CCSCREEN17_3 CCSCREEN17_4 CCSCREEN17_99	Filtered for AGE>=50	Yes
Proportion of people who were reported to have had a flu vaccine in the past year (“within the past year” responses)	FLUVACC2  <i>Recoded variable in which response options are: 0 'not in the past year' 1 'flu vaccine in the past year'.</i>		Yes

**Sub-domain: Wellness**

<b>Table label in body of report</b>	<b>Variable name used in calculation</b>	<b>How it's filtered in the body of the report</b>	<b>Tested for significance?</b>
Proportion of people who take at least one med for mood disorder, anxiety, psychotic disorder, behavioral challenges	Totmeds <i>Recoded variable using MEDS15 and MEDBEHAV 0 'No meds' 1 'At least one kind'.</i>		Yes
Proportion of people who were reported to take medication for at least one of the following: mood disorders, anxiety, psychotic disorders**	meds_mood <i>Recoded variable in which response options are: 0 'No meds for mood, anxiety, psychotic' 1 'Takes meds for mood, anxiety, psychotic'.</i>		Yes
Number of meds taken for at least one of the following: mood disorders, anxiety, psychotic disorders	NUMMEDS		No
Proportion of people who were reported to take medication for behavior challenges	meds_behav <i>Recoded variable in which response options are: 0 'No meds for behavior challenges' 1 'Takes meds for behavior challenges'.</i>		Yes
Number of meds taken for behavior challenges	NUMBEMEDS		No
Proportion of people who were reported to engage in regular physical activity at least sometimes	PHYSACT_1x <i>Recoded variable in which response options are: 1 yes, at least one time per week 0 no.</i>	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people in each BMI category	MUSCLEACT_1x <i>Recoded variable in which response options are: 1 yes, at least one time per week 0 no.</i>	Filtered for Section II (INVL_CR2_15=0)	Yes

Proportion of people in each BMI category	BMI_categ  BMI variable created using formula: BMI=(Weight/(height in inches*height in inches))*703  <i>Creates categories for BMI</i> 1 'underweight' 2 'normal' 3 'overweight' 4 'obese'.		No
Proportion of people who were reported to chew or smoke tobacco	TOBACCO2 <i>Recoded variable in which response options are:</i> 0 'no' 1 'uses tobacco products'.		Yes
Proportion of people reported to have a behavior plan	BehPlan_yes <i>Recoded variable in which response options are:</i> 0 'No' 1 'Yes'.		Yes

### Sub-domain: Rights and Respect

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who reported people always knock before entering home ("yes" responses only)	ENTERHM2 <i>Recoded variable in which response options are:</i> 1 yes 0 sometimes, no.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported people always knock before entering bedroom ("yes" responses only)	ENTERBRM2 <i>Recoded variable in which response options are:</i> 1 yes 0 sometimes, no.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they could be alone at home with visitors ("yes" responses only)	ALONEGST2 <i>Recoded variable in which response options are:</i> 1 yes 0 no.	Filtered for Section 1 (INVL_CR1_15=0)	Yes
Proportion of people who reported they have enough privacy at home	BEALONE2 <i>Recoded variable in which response options are:</i> 1 yes 0 no.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported people never read their mail without permission** ("no" responses only)	MAILOPEN2 <i>Recoded variable in which response options are:</i> 1 yes 0 no.	Filtered for Section 1 (INVL_CR1_15=0)	Yes
Proportion of people who reported they can use phone and internet without restriction ("yes without restriction" response only)	USEPHONE2 <i>Recoded variable in which response options are:</i> 1 yes 0 no.	Filtered for Section 1 (INVL_CR1_15=0)	Yes

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who have a place to be alone (can have time to self) (yes responses only)	BEALONE2 <i>Recoded variable in which response options are:</i> 1 yes 0 no.	Filtered for Section 1 (INVL_CR1_15=0)	Yes
Proportion of people who reported their staff treat them with respect ("yes" responses only)	STAF2 <i>Recoded variable in which response options are:</i> 1 yes 0 no, sometimes, some staff.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they have attended a self-advocacy event, or chose not to ("yes" and "chose not to" responses)	SELFADVO2 <i>Recoded variable in which response options are:</i> 0 no 1 had opportunity, yes.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who report having a key to their home ("yes" responses only)	KEY2 <i>Recoded variable in which response options are:</i> 1 Yes 0 No, maybe not sure.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who report they can lock their bedroom ("yes" responses only)	LOCK2 <i>Recoded variable in which response options are:</i> 1 Yes 0 No, maybe not sure.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who report having voted ("Yes" and "had opportunity" only)	VOTE2 <i>Recoded variable in which response options are:</i> 1 Yes or had opportunity to register to vote but chose not to 0 No.	Filtered for Section II (INVL_CR2_15=0)	Yes
Proportion of people who report that there are rules about having friends or visitors ("yes" responses only)	VISITRULES2 <i>Recoded variable in which response options are:</i> 0 No 1 Yes	Filtered for Section I (INVL_CR1_15=0)	Yes

### Sub-domain: Safety

Table label in body of report	Variable name used in calculation	How it's filtered in the body of the report	Tested for significance?
Proportion of people who report that there is at least one place where he/she feels afraid.	Afraid_yes <i>Recoded variable in which response options are:</i> 0 'No' 1 'Yes, either in home, day program, work, community, transport, or other'.	Filtered for Section I (INVL_CR1_15=0)	Yes
Proportion of people who reported they have someone to go to for help if they feel scared ("yes" responses only)	AFRAIDHELP2 <i>Recoded variable in which response options are:</i> 0 no, maybe 1 yes.	Filtered for Section I (INVL_CR1_15=0)	Yes

---

## Sampling procedures

**Please note,** Table C2 includes detailed sample information regarding populations states ***excluded*** from the sample.

Table C1. State sampling information

State	Names of programs	Funding Sources	Adults only?	Description of the population	Individual program population	Total NCI IPS 2017-18 sample number
AL	ID and LAH waiver	HCBS 1915(c)	Supports approximately 100 people under 18 (not included in NCI sample)	Adults over 18 with ID		5,222
AZ	HCBS Waiver	1115	Children are also included in the Waiver	Persons with IDD, EP, CP, Autism		14,783
AR	Waiver	HCBS 1915 (c)	Yes	Adults over age 18 with ID/DD		4,000
CA						128,796
CO	HCBS-DD	1915 (c)		All adults age 18 and over, enrolled in HCBS-DD who receive at least one service other than case management.	3,247	6,658
	HCBS-SLS	1915 (c)		All adults age 18 and over, enrolled in HCBS-SLS who receive at least one service other than case management.	2,769	
	State-SLS	State General Fund		All adults age 18 and over, enrolled in State-SLS who receive at least one service other than case management.	642	
CT	Comprehensive Waiver	1915(c)	Yes	Adults 18 and over with ID/DD	5,220	11,124
	Individual and Family Supports Waiver	1915(c)	Yes	Adults 18 and over with ID/DD	3,576	
	Employment and Day Supports Waiver	1915(c)	Yes	Adults 18 and over with ID/DD	1,087	
	ICF/ID Participants	ICF/ID	Yes	Adults 18 and over with ID/DD	742	
	Non-Waivered	State Funded	Yes	Individuals who are not enrolled in an HCBS waiver but are receiving at least one funded service in addition to Case Management	499	

State	Names of programs	Funding Sources	Adults only?	Description of the population	Individual program population	Total NCI IPS 2017-18 sample number
DE	Community Services-Residential Habilitation	HCBS 1915 (c)	Yes	Adults age 18 and older who are receiving residential habilitation support services		1,138
DC	Waiver	HCBS 1915 (c)	Yes	People over age 18 with ID/DD who receive service coordination and at least one service	1,720	2,039
	ICF	ICF	Yes	People who receive service coord and live in an ICF	319	
FL	iBudget Waiver	HCBS 1915 (c)	Yes	Age 3 and up, but NCI is only completed for individuals age 18 and over		32,633
GA	New Options Waiver (NOW)	HCBS 1915 (c)	Yes	Adults over age 18 with ID/DD	3,831	12,090
	Comprehensive Supports Waiver (COMP)	HCBS 1915 (c)	Yes	Adults over age 18 with ID/DD	6,664	
	State Funded Services (SFS)--	State Funds	No	People who meet the eligibility criteria for IDD services	1,595	
IL	Adults with Developmental Disabilities waiver	HCBS 1915 c	Yes	Adults over age 18 with ID/DD		20,658
IN	Community Integration and Habilitation Waiver	HCBS 1915 (c)	Yes	Individuals 18 years and older actively receiving waiver services in accordance with Indiana's uncapped waiver support program.	8,799	17,452
	Family Supports Waiver	HCBS 1915 (c)	Yes	Individuals 18 years and older actively receiving waiver services in accordance with Indiana's capped waiver support program.	8,653	
KS	IDD/DD	HCBS 1915(c)	yes	Adults over age 18 with ID/DD		8,000
KY	SCL	1915(c)	yes		4,635	11,340
	Michelle P	1915(c)	no	Also serves children w/ID/DD	5,681	
	State General Funds		yes		672	
	ICF	ICF/ID	yes		352	

State	Names of programs	Funding Sources	Adults only?	Description of the population	Individual program population	Total NCI IPS 2017-18 sample number
LA	New Opportunities Waiver (NOW)	HCBS 1915 (c)	No. Children from the age of 3 and older may also qualify.	Individuals with a qualifying diagnosis of intellectual or developmental disability.	8,379	15,871
	Supports Waiver (SW)	HCBS 1915 (c)	yes	Individuals with a qualifying diagnosis of intellectual or developmental disability.	1,860	
	Residential Options Waiver (ROW)	HCBS 1915 (c)	No, this waiver is open to all ages.	Individuals with a qualifying diagnosis of intellectual or developmental disability.	18	
	ICF/IID (Public/Private, large/small)	ICF/IID	No. Individuals under the age of 18 may qualify for services.	Individuals with a qualifying diagnosis of intellectual or developmental disability.	4,530	
	State-funded	State Plan	No. Individuals under the age of 18 may qualify for services.	Individuals with a qualifying diagnosis of intellectual or developmental disability.	1,084	
ME	Case Management (Medicaid)	Medicaid State Plan	No.	Case Management is an entitlement for all persons who qualify for developmental services.		6,426
MA	Waivers (5): ABI MFP Adult Intensive Community Living Adult Supports	HCBS 1915		Adults over age 22 with ID/DD/ABI	15,734	20,266
	State plan			Adults over age 22 with ID/DD	4,532	
MI	3	HCBS 1915 (c), 1915 (i), and State Plan	yes	Adults over age of 18 with ID/DD		35,575
MN	HCBS Waivers and State Plan Home Care	HCBS 1915 and State Plan	Yes	Adults over age of 18 with ID/DD		23,591
MO	Entire DD population of adults 18 and older who receive at least one authorized service in addition to support coordination.	HCBS 1915(c), State Plan, General Revenue	Yes	Adults 18 and older with ID/DD		18,702
NE	Comprehensive Waiver	1915(c)	No	This program serves adults and children for both residential and day services	3,211	4,384

State	Names of programs	Funding Sources	Adults only?	Description of the population	Individual program population	Total NCI IPS 2017-18 sample number
	Adult Day Waiver	1915 (c)	Yes	This program supports adults only for their day service needs.	877	
	ICF/IDs		Yes	This program serves adults for both residential and day services	296	
NV	Nevada ID/RC HCBS Waiver	HCBS 1915 (c)	No, this program supports people of all ages	Adults and Children with ID/DD		2,091
NY	NY OPWDD Comprehensive Waiver	HCBS 1915 (c)	Adults and Children with ID/DD	Individuals with ID/DD		103,000
NC	All Medicaid and state-funded I/DD services	ICF/ID, HCBS waivers, Medicaid State Plan, state funded services	No	Adults over 18 years with ID/DD		15,500
OH	Waiver	1915 (c)	No, includes children	Public (county boards of dd services)	35,000	41,000
	ICFID	1915 (c)	No, includes children	Private facilities	6,000	
OK	Community Waiver-Residential	HCBS 1915(c)	No.	Adults and children with ID/DD.	2,227	4,897
