Table 54. Does not have paid community job and would like a job in the community	36
Table 55. Reasons does not want a paid community job (among those who do not currently have and do not want a paid community job)	36
Table 56. Has community employment as a goal in their service plan	37
Table 57. Takes classes, training or does something to get a job or do better at current job	37
Table 58. Attends day program or sheltered workshop (a program or center where other people with disabilities spend their day)	37
Table 59. Volunteers	37
Self-Determination.....	38
Table 60. Using a self-directed supports option	41
Table 61. People who make decisions or have input in making decisions for how budget for services is used (among those using a self-directed supports option).....	41
Table 62. Hires or manages staff (among those using a self-directed supports option).....	41
Table 63. Can make changes to individual budget/services if needed (among those using a self-directed supports option)	42
Table 64. Has enough help deciding how to use their individual budget/services (among those using a self-directed supports option).....	42
Table 65. Gets information about how much money is left in budget/services (among those using a self-directed supports option).....	42
Table 66. Information about budget/services is easy to understand (among those using a self-directed supports option and who report they receive information about how much money is left in budget/services)	43
Table 67. Frequency with which the person gets information about budget/services (among those using a self-directed supports option)	43
Community Inclusion, Participation and Leisure	44
Table 68. Went out shopping at least once in the past month	48
Table 69. Went out on errands at least once in the past month.....	48
Table 70. Went out for entertainment at least once in the past month	48
Table 71. Went out to a restaurant or coffee shop at least once in the past month	48
Table 72. Went out to religious service or spiritual practice at least once in the past month.....	49
Table 73. Participates as a member in community group	49
Table 74. Went away on vacation in the past year.....	49
Table 75. Community Inclusion Scale	49

Table 76. Able to go out and do the things like to do in the community	50
Table 77. Gets to do things likes to do in the community as much as wants	50
Table 78. Has enough things likes to do when at home	50
Table 79. Gets help to learn new things	50
Relationships.....	51
Table 80. Has friends who are not staff or family members	55
Table 81. Has best friend (may be staff or family)	55
Table 82. Wants help to meet or keep in contact with friends	55
Table 83. Has friends (may be staff or family) and can see their friends when they want	55
Table 84. Reasons cannot see friends if sometimes or often unable to.....	56
Table 85. Has other ways of talking, chatting, or communicating with friends when cannot see them	56
Table 86. Can see or communicate with their family when they want or chooses not to (among those who do not live in the family home)	56
Table 87. Often feels lonely	57
Table 88. Can go on a date or is married or living with partner	57
Satisfaction.....	58
Table 89. Likes home or where lives	62
Table 90. Reasons does not like home, continued (among those who do not like their home or where they live)	62
Table 91. Wants to live somewhere else	62
Table 92. Likes paid community job (among those reported to have a paid community job from administrative records).....	63
Table 93. Wants to work somewhere else (among those reported to have a paid community job from administrative records).....	63
Table 94. Attends a day program or workshop and wants to go more, less, or the same amount of time	63
Table 95. Person wants to go out shopping more, less or the same amount as last month.....	63
Table 96. Person wants to go out for entertainment more, less or the same amount as last month	64
Table 97. Person wants to go out to a restaurant or coffee shop more, less or the same amount as last month	64
Table 98. Person wants to go out to a religious service or spiritual practice more, less or the same amount as last month	64
Table 99. Person wants to be a part of more community groups	65
Table 100. Services and Supports help person live a good life.....	65
Service Coordination.....	66
Table 101. Has met or spoken with case manager/service coordinator	71

Table 102. Case manager/service coordinator asks person what s/he wants	71
Table 103. Able to contact case manager/service coordinator when wants	71
Table 104. Staff come and leave when they are supposed to	71
Table 105. Took part in last service planning meeting, or had the opportunity but chose not to	72
Table 106. Understood what was talked about at last service planning meeting.....	72
Table 107. Last service planning meeting included people person wanted to be there.....	72
Table 108. Person was able to choose services they get as part of service plan	72
Table 109. Talked about learning new things at last service planning meeting.....	72
Table 110. Remembers what is in the service plan of those who report having or maybe having a service plan.....	73
Table 111. Service plan includes things that are important to person.....	73
Table 112. Knows who to ask if s/he wants to change something about services.....	73
Table 113. Of those who say they want to learn to perform ADLs more independently, the percentage who have a goal in the service plan to increase independence or improve function skill performance in ADLs	74
Table 114. Of those who say they want a paid job in the community (and do not currently have one), the percentage who have community employment as a goal in the service plan	74
Access.....	75
Table 115. Has a way to get places need to go.....	78
Table 116. Has a way to get places when wants to do something outside of home.....	78
Table 117. Staff have right training to meet person's needs.....	78
Table 118. Additional services needed	79
Health.....	80
Table 119. Has a primary care doctor or primary care practitioner	84
Table 120. In poor health.....	84
Table 121. Had a complete physical exam in the past year.....	84
Table 122. Had a dental exam in the past year	84
Table 123. Had an eye exam or vision screening in the past year.....	85
Table 124. Had a hearing test in the past five years.....	85
Table 125. Had a Pap test in the past three years (women 21 and older)	85
Table 126. Had a mammogram test in the past two years (among women ages 40 and over).....	85
Table 127. Last colorectal cancer screening (among people ages 50 and over)	86

Table 128. Had a flu vaccine in the past year	86
Medication	87
Table 129. Takes at least one medication for mood, anxiety, psychotic disorder and/or behavioral challenge	90
Table 130. Takes medication for mood, anxiety, and/or psychotic disorders.....	90
Table 131. Number of medications taken for at least one of the following: mood disorders, anxiety, or psychotic disorders if taking at least one medication for this purpose.....	90
Table 132. Takes medication for behavior challenges.....	90
Table 133. Number of medications taken for behavior challenges if taking at least one for this purpose	91
Table 134. Has a behavior plan	91
Table 135. Has a behavior plan (among those who take medication for a behavior challenge).....	91
Wellness	92
Table 136. Exercises or does physical activity at least once per week for 10 minutes or more at a time	94
Table 137. Exercises or does physical activity at least once per week that makes the muscles in arms, legs, back, and/or chest work hard.....	94
Table 138. Body Mass Index (BMI) category.....	94
Table 139. Uses nicotine or tobacco products.....	94
Rights and Respect.....	95
Table 140. Others (who do not live in the home) let person know before entering home	101
Table 141. Has a key to the home.....	101
Table 142. Wants a key to the home (if does not have one).....	101
Table 143. Can lock bedroom if wants.....	101
Table 144. Others let person know before coming into person's bedroom.....	102
Table 145. Has a place to be alone in the home.....	102
Table 146. Can be alone with friends or visitors at home	102
Table 147. There are rules about having friends or visitors in the home	102
Table 148. Can stay at home if others in the house go somewhere (if not living alone)	103
Table 149. Others read person's mail or email without asking	103
Table 150. Can use phone and internet when wants	103
Table 151. Has a cell phone or smartphone	103
Table 152. Wants a cell phone or smartphone (if does not have one).....	104

Table 153. Reasons does not have a cell phone or smartphone (if does not have one but wants one).....	104
Table 154. Staff treat person with respect	104
Table 155. Has attended a self-advocacy group, meeting, conference or event or had the opportunity and chose not to	104
Table 156. Has voted in local, state, or federal election, or had the opportunity and chose not to.....	105
Safety	106
Table 157. There is at least one place where the person feels afraid or scared (in home, day program, work, walking in the community, in transport, and/or other place)	108
Table 158. Has someone to talk to if ever feels afraid or scared.....	108

What is NCI-IDD?

The National Core Indicators® – Intellectual and Developmental Disabilities (NCI-IDD) program is a voluntary effort by state developmental disability agencies to track their performance using a standardized set of consumer and family/guardian surveys with nationally validated measures. The effort is coordinated by the National Association of State Directors of Developmental Disabilities Services (NASDDDS) and the Human Services Research Institute (HSRI).

In 2020-21 a total of 48 states, the District of Columbia and 22 sub-state entities participated in NCI-IDD. Not all participating states do all surveys every year.

Where are the statistics in this report from?

This report includes findings from the National Core Indicators® 2020-21 In-Person Survey (IPS). The data shown are weighted NCI-IDD averages. These data are comprised of 19,991 valid surveys collected across 26 states: AL, AR, CA, CO, FL, GA, HI, IL, IN, KS, KY, MI, MN, MO, NE, NV, NH, NJ, NC, OH, OR, PA, SD, TN, VA, WI.

What is the NCI-IDD In-Person Survey?

The NCI-IDD In-Person Survey is completed with adults with IDD age 18 and older receiving at least one paid service (in addition to case management) from the state DD service system. The survey instrument includes a “Background Information Section”, which gathers data about the consumer from agency records, and an In-Person Survey that is conducted face-to-face with the person receiving services, either in person or via videoconference. The In-Person Survey is composed of two sections: Section I includes subjective questions that can only be answered by the person receiving services from the state. Section II includes objective, fact-based questions that can be answered by the person or, if needed, a proxy respondent who knows the person well.

What is included in this report?

This report includes this state’s In-Person Survey data compared to the weighted NCI-IDD Average. State outcomes that are statistically significantly higher or lower than the NCI-IDD Average are indicated with an arrow:

1. Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ▲;
2. Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ▼.

Significance is taken at a .01 level and accounts for *effect size*. For more information about significance testing and effect size, please see [the Methodology section of the National report](#).

Presentation of Data

The charts in this document, grouped by subdomain, display the state results alongside the weighted average across states (NCI-IDD average). The charts are followed by accessible tables containing the same information.

Many questions in the IPS allow respondents to answer a question with “middle” response like “maybe”, “sometimes” or “in-between”. The data in this report are “collapsed” data. That means that two or more response options are grouped together if they are considered to reflect a positive outcome. The table titles explain which options were grouped. To see the breakout of responses for each option, please see Appendix C of the National In-Person Report.

The NCI-IDD averages are “weighted” to reflect the states’ relative population and sample sizes. We created the weights using the state’s number of valid surveys and its total survey-eligible population. This way, a state that provides services to a larger number of people but uses a sample similar in size to other states has a greater influence on the overall NCI-IDD average (that is, its contribution is *proportional to its service population*).

To find out more about the development of In-Person Survey, data analysis and state samples, check out the National In-Person Report: <https://bit.ly/34nvgXY>.

Demographics

This section presents descriptive information of individuals surveyed.

See all states Demographic data [here](#).

Important notes on data:

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population.

An asterisk (*) denotes that data include at least 25% “don’t know” and missing data

All NCI-IDD Averages are weighted

Table 1. Age

State v NCI-IDD	Mean	Min	Max	Standard Deviation	Median	N
NE	41.7	18.0	86.0	15.5	38.0	416
Weighted NCI-IDD Average	41.4	18.0	97.0	15.6	38.0	19,912

Choice and Decision-Making

People make choices about their lives and are actively engaged in planning their services and supports.

See all states' *Choice and Decision-Making* outcomes [here](#).

Important note on data

Data for all but one item ('Chose Case Manager/Service Coordinator') in this section are ***risk adjusted***. Risk (or "outcome") adjustment is a statistical process that helps "level the playing field" by controlling for differences in the individual characteristics of people who completed the IPS. This analysis helps account for the fact that states have different eligibility definitions for services and may have samples with different characteristics. The indicators are risk-adjusted using the following characteristics: age, level of intellectual disability, level of mobility, and whether any behavioral supports are needed to prevent self-injury, disruptive, or destructive behavior.

Data for all but one item ('Chose Case Manager/Service Coordinator') in this section are *risk adjusted*
Data for NY, MN and WI are not included because items needed for risk adjustment were not available in records
All NCI-IDD Averages are *weighted*

Work

People have support to find and maintain community integrated employment.

See all states' Work outcomes [here](#).

NCI-IDD reports on four types of paid community jobs:

1. Individual job without publicly funded supports—an individual job in which the person does not receive state or other funded supports;
2. Individual job with publicly funded supports— an individual job in which the person receives state or other funded supports;
3. Group-supported—a job that takes part in a community setting but is done with a group of individuals with disabilities (e.g., work crew). Group-supported jobs may or may not receive publicly funded supports; and
4. Community job in a business that primarily hires people with disabilities—a job where the employees with disabilities interact with the non-disabled population; this job is not in a traditional sheltered workshop and is NOT an enclave. This type was added to our definition of 'paid community job' in 2017-18.

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population.

An asterisk (*) denotes that data include at least 25% “don’t know” and missing data
All NCI-IDD averages are weighted

Has a paid community job (in an individual, group and/or in a business that primarily hires people with disabilities)

Self-Determination

People participate in directing their own supports and services.

See all states' Self-Determination outcomes [here](#).

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population. Additionally, many states have very low rates of individuals who were surveyed and were reported to use a self-directed supports option. **Significance testing was not conducted on these items.**

Using a self-directed supports option

People who make or have input in making decisions for how budget for services is used

Hires or manages staff

Can make changes to individual budget/services if needed

Data are based on those who are using a self-directed supports option
All NCI-IDD Averages are weighted

Has enough help deciding how to use their individual budget/services
