| Table 184. Respect for Personal Space Scale..... | 125 |
|--------------------------------------------------|-----|

What is National Core Indicators® – Intellectual and Developmental Disabilities (NCI-IDD)?

The National Core Indicators® – Intellectual and Developmental Disabilities (NCI-IDD) program is a voluntary effort by state developmental disability agencies to track their performance using a standardized set of consumer and family/guardian surveys with nationally validated measures. The effort is coordinated by the National Association of State Directors of Developmental Disabilities Services (NASDDDS) and the Human Services Research Institute (HSRI).

Where are the statistics in this report from?

This report includes findings from the National Core Indicators® 2021-22 In-Person Survey (IPS). The data shown are weighted NCI-IDD averages. These data are comprised of valid surveys collected across 27 states: AR, CO, CT, DE, FL, GA, IL, IN, KS, KY, MA, MI, MN, MO, NE, NV, NJ, NY, NC, OH, OK, OR, PA, SC, UT, VA, WI.

What is the NCI-IDD In-Person Survey?

The NCI-IDD In-Person Survey is completed with adults with IDD age 18 and older receiving at least one paid service (in addition to case management) from the state DD service system. The survey instrument includes a “Background Information Section”, which gathers data about the consumer from agency records, and an In-Person Survey that is conducted face-to-face with the person receiving services, either in person or via videoconference. The In-Person Survey is composed of two sections: Section I includes subjective questions that can only be answered by the person receiving services from the state. Section II includes objective, fact-based questions that can be answered by the person or, if needed, a proxy respondent who knows the person well.

What is included in this report?

This report includes this state’s In-Person Survey data compared to the weighted NCI-IDD Average. State outcomes that are statistically significantly higher or lower than the NCI-IDD Average are indicated with an arrow:

1. Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ▲;
2. Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ▼.

Significance is taken a .01 and account for *effect size*. For more information about significance testing and effect sized, please see [the Methodology section of the National report](#).

Presentation of Data

The charts in this document, grouped by subdomain, display the state results alongside the weighted average across states (NCI-IDD average). The charts are followed by accessible tables containing the same information.

Many questions in the IPS allow respondents to answer a question with “middle” response like “maybe”, “sometimes” or “in-between”. The data in this report are “collapsed” data. That means that two or more response options are grouped together if they are considered to reflect a positive outcome. The table titles explain which options were grouped. To see the breakout of responses for each option, please see [Appendix C of the National In-Person Report](#).

The NCI-IDD averages are “weighted” to reflect the states’ relative population and sample sizes. We created the weights using the state’s number of valid surveys and its total survey-eligible population. This way, a state that provides services to a larger number of people but uses a sample similar in size to other states has a greater influence on the overall NCI-IDD average (that is, its contribution is *proportional to its service population*).

To find out more about the development of In-Person Survey, data analysis and state samples, check out the [National In-Person Survey Report](#).

Demographics

This section presents descriptive information of individuals surveyed.

Important notes on data:

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population.

Table 1. Age

| State v NCI | Mean | Min | Max | Standard Deviation | Median | N |
|-------------|------|-----|-----|--------------------|--------|--------|
| NY | 41.1 | 19 | 100 | 16.6 | 36.0 | 1,012 |
| NCI-IDD | 42 | 18 | 100 | 16 | 39 | 13,416 |

Table 2. Age Group

| State v NCI | 18-22 | 23-34 | 35-54 | 55-74 | 75 and older | Unknown | N |
|-------------|-------|-------|-------|-------|--------------|---------|--------|
| NY | 8% | 38% | 29% | 21% | 4% | 0% | 1,012 |
| NCI-IDD | 8% | 33% | 33% | 23% | 3% | 1% | 13,559 |

Table 3. Gender

| State v NCI | Male | Female | Other | N |
|-------------|------|--------|-------|--------|
| NY | 63% | 37% | 0% | 1,012 |
| NCI-IDD | 60% | 40% | 0% | 13,484 |

Table 4. Marital Status

| State v NCI | Single, Never Married | Married | Single, Married in the Past | Don't Know | N |
|-------------|-----------------------|---------|-----------------------------|------------|--------|
| NY | 92% | 1% | 1% | 6% | 1,011 |
| NCI-IDD | 95% | 1% | 2% | 2% | 13,245 |

Table 5. Person is a parent

Categories are not mutually exclusive, therefore N is not shown

| State v NCI | No, does not have a child | Yes, parent of a child or children under 18 | Yes, parent of a child or children over 18 | Don't Know |
|-------------|---------------------------|---------------------------------------------|--------------------------------------------|------------|
| NY * | 88% | 5% | 5% | 90% |
| NCI-IDD | 96% | 2% | 2% | 21% |

Table 6. Race and Ethnicity

| State v NCI | American Indian or Alaska Native | Asian | Black or African American | Pacific Islander | White | Hispanic or Latino | Other | Two or More | Don't Know | N |
|-------------|----------------------------------|-------|---------------------------|------------------|-------|--------------------|-------|-------------|------------|--------|
| NY | 0% | 2% | 15% | 0% | 57% | 7% | 2% | 0% | 17% | 1,012 |
| NCI-IDD | 1% | 2% | 16% | 0% | 71% | 5% | 2% | 1% | 3% | 13,337 |

Table 7. Residential Designation¹

| State v NCI | Metropolitan | Micropolitan | Rural | Small Town | N |
|-------------|--------------|--------------|-------|------------|--------|
| NY | 82% | 10% | 4% | 5% | 1,012 |
| NCI-IDD | 78% | 13% | 3% | 7% | 13,428 |

¹ Information based on residential designation defined by the USDA: <https://www.ers.usda.gov/dataproducts/rural-urban-commuting-area-codes.asp>

Table 8. Type of Residence – ICFs/ID, Nursing facilities or other specialized institutional settings

| State v NCI | ICF/IID, 4-6 Residents With Disabilities | ICF/IID, 7-15 Residents With Disabilities | ICF/IID, 16 or More Residents With Disabilities | Nursing Facility | Other Specialized Institutional Facility | N |
|-------------|------------------------------------------|-------------------------------------------|-------------------------------------------------|------------------|------------------------------------------|--------|
| NY | 0% | 0% | 0% | 0% | 0% | 1,012 |
| NCI-IDD | 1% | 2% | 1% | 0% | 0% | 13,296 |

Table 9. Type of Residence – Group Residential Setting

| State v NCI | Group Living Setting, 2-3 People With Disabilities | Group Living Setting, 4-6 People With Disabilities | Group Living Setting, 7-15 People With Disabilities | N |
|-------------|----------------------------------------------------|----------------------------------------------------|-----------------------------------------------------|--------|
| NY | 4% | 23% | 28% | 1,012 |
| NCI-IDD | 10% | 19% | 6% | 13,296 |

Table 10. Type of Residence – Other Home Settings

| State v NCI | Own Home or Apartment | Parent or Relative's Home | Foster Care or Host Home (2 or More People With a Disability) | Foster Care, Host Home, or Shared Living (1 Person With a Disability) | Homeless or Crisis Bed Placement | Other | Don't Know | N |
|-------------|-----------------------|---------------------------|---------------------------------------------------------------|-----------------------------------------------------------------------|----------------------------------|-------|------------|--------|
| NY | 8% | 34% | 1% | 0% | 0% | 0% | 2% | 1,012 |
| NCI-IDD | 15% | 39% | 3% | 2% | 0% | 1% | 1% | 13,296 |

Table 11. Length of Time at Current Residence (If Not Homeless or in Crisis Bed Placement)

| State v NCI | Less Than 1 Year | 1-3 Years | 3-5 Years | Over 5 Years | Don't Know | N |
|-------------|------------------|-----------|-----------|--------------|------------|--------|
| NY | 6% | 15% | 9% | 68% | 2% | 966 |
| NCI-IDD | 8% | 20% | 8% | 58% | 5% | 13,113 |

Table 12. Person's residence owned or controlled by provider agency

| State v NCI | No | Yes | Don't Know | N |
|-------------|-----|-----|------------|--------|
| NY | 60% | 32% | 9% | 1,003 |
| NCI-IDD | 60% | 37% | 3% | 13,119 |

Table 13. Person is named on the lease or other legally enforceable rental agreement

| State v NCI | No | Yes, named on lease or deed | Yes, named on other legally enforceable rental agreement | Don't Know | N |
|-------------|-----|-----------------------------|----------------------------------------------------------|------------|--------|
| NY | 61% | 12% | 3% | 23% | 1,008 |
| NCI-IDD | 60% | 18% | 8% | 15% | 12,710 |

Table 14. Has ID Diagnosis

| State v NCI | No | Yes | Don't Know | N |
|-------------|-----|-----|------------|--------|
| NY | 12% | 87% | 2% | 1,012 |
| NCI-IDD | 12% | 87% | 1% | 13,392 |

Table 15. Level of ID (if the person has an ID diagnosis)

| State v NCI | Mild | Moderate | Severe | Profound | Unspecified | Unknown | N |
|-------------|------|----------|--------|----------|-------------|---------|--------|
| NY | 42% | 30% | 13% | 9% | 4% | 2% | 892 |
| NCI-IDD | 38% | 29% | 12% | 7% | 12% | 1% | 11,965 |

Table 16. Mood, Anxiety, Behavior, Psychotic, and Other Mental Illness²

| State v NCI | Mood Disorder | Anxiety Disorder | Behavior Challenges | Psychotic Disorder | Other Mental Illness or Psychiatric Diagnosis |
|-------------|---------------|------------------|---------------------|--------------------|-----------------------------------------------|
| NY | 21% | 22% | 25% | 11% | 15% |
| NCI-IDD | 31% | 27% | 22% | 10% | 10% |

² ('Don't Know' responses are included in the denominator) (Categories are not mutually exclusive therefore N is not shown)

Table 17. Diagnoses noted in record

| State v NCI | Autism Spectrum Disorder | Cerebral Palsy | Brain Injury | Seizure Disorder | Chemical Dependency |
|-------------|--------------------------|----------------|--------------|------------------|---------------------|
| NY | 35% | 9% | 2% | 18% | 0% |

| NCI-IDD | 77% | 2% | 1% | 6% | 7% | 2% | 5% | 286 |

Table 39. Has gotten the COVID-19 vaccine⁵

| State v NCI | No | Yes, fully vaccinated | Partially—received first of two doses | Don't know | N |
|-------------|-----|-----------------------|---------------------------------------|------------|--------|
| NY | n/a | n/a | n/a | n/a | n/a |
| NCI-IDD | 10% | 77% | 4% | 9% | 11,230 |

⁵ At the time of survey implementation vaccine boosters were not in use

Employment

Value statement: People have competitive paid jobs in community-based businesses. People's jobs reflect varied preferences for employment.

NCI-IDD reports on four types of paid community jobs:

1. Individual job without publicly funded supports—an individual job in which the person does not receive state or other funded supports;
2. Individual job with publicly funded supports— an individual job in which the person receives state or other funded supports;
3. Group-supported—a job that takes part in a community setting but is done with a group of individuals with disabilities (e.g., work crew). Group-supported jobs may or may not receive publicly funded supports; and
4. Community job in a business that primarily hires people with disabilities—a job where the employees with disabilities interact with the non-disabled population; this job is not in a traditional sheltered workshop and is NOT an enclave.

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population.

Please note: The following states are not included in some of the tables due to low N (<20), but their responses are included in the NCI Average: AL, HI, KY, MN and WI. State data with at least 25% “don’t knows” and missing data are denoted with an asterisk ()*

WI captured employment information differently from other states; their data are not comparable to other states and are therefore denoted with a sign (≠).

Table 40. Has a paid community job individual group and or in a business that primarily hires people with disabilities (Also known as “competitive employment”)

Information may have been obtained through state records

| State v NCI | Average | N |
|----------------|---------|--------|
| NY ▼ | 11% | 919 |
| NCI-IDD | 16% | 11,888 |

Table 41. Type of paid community job (of those with paid community job)

| State v NCI | Individual without publicly funded supports | Individual with publicly funded supports | N | Group with or without publicly funded supports | N | Paid work in a community business that primarily hires people with disabilities | N |
|----------------|---------------------------------------------------------|------------------------------------------------------|-------|---------------------------------------------------------------|-------|------------------------------------------------------------------------------------------------------------|-------|
| NY | 45% | 39% | 82 | 15% | 93 | 9% | 81 |

| NCI-IDD | 43% | 16% | 8% | 7% | 35% | 18% | 23% | 8,227 |

Table 49. Takes part in classes training or skills building activities to gain skills to expand their job

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 17% | 536 |
| NCI-IDD | 17% | 7,967 |

Has a paid community job; individual, group, and/or in a business that primarily hires people with disabilities (Also known as “competitive employment”)

Type of paid community job (of those with paid community job)

Average number of biweekly hours by type of community job

Average biweekly hourly wage by type of community job

Job industries of those with paid community jobs

Job industries of those with paid community jobs (continued)

Does not have paid community job and wants a paid community job

Has community employment as a goal in their service plan

Uses special technology to help do their job

Does these activities at least once a week.

Takes part in classes, training or skills building activities to gain skills to expand their job opportunities

Community Inclusion and Belonging

Value statement: People do things in their community they want to do. People feel like they belong to the communities/groups of their choosing.

Table 50. Gets to do things they like to do in the community as much as wants

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 69% | 516 |
| NCI-IDD | 69% | 7,771 |

Table 51. Does things in the community with the people they want

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 79% | 507 |
| NCI-IDD | 81% | 7,653 |

Table 52. Can be themselves when with others in groups, organizations, or communities the person takes part in (if person takes part in groups, organizations, or communities)

Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 90% | 212 |
| NCI-IDD | 92% | 3,161 |

Table 53. Others include them as part of the group in groups, organizations, or communities the person takes part in (if person takes part in groups, organizations, or communities)

Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 88% | 213 |
| NCI-IDD | 90% | 3,176 |

Table 54. Gets help to learn new things

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 80% | 523 |
| NCI-IDD | 80% | 7,771 |

Gets to do things likes to do in the community as much as wants

Does things in the community with the people they want

Can be themselves when with others in groups, organizations, or communities the person takes part in (if person takes part in groups, organizations, or communities)

Others include them as part of the group in groups, organizations, or communities the person takes part in (if person takes part in groups, organizations, or communities)

Gets help to learn new things

Community Participation

Value statement: People participate in activities in their communities

Table 55. Went out shopping at least once in the past month
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|--------|
| NY | 84% | 957 |
| NCI-IDD | 82% | 13,056 |

Table 56. Went out on errands at least once in the past month
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|--------|
| NY ▼ | 77% | 942 |
| NCI-IDD | 81% | 12,877 |

Table 57. Went out for entertainment at least once in the past month

| State v NCI | Average | N |
|-------------|---------|--------|
| NY | 59% | 949 |
| NCI-IDD | 62% | 12,997 |

Table 58. Went out to a restaurant or coffee shop at least once in the past month
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|--------|
| NY | 78% | 960 |
| NCI-IDD | 77% | 13,040 |

Table 59. Went out to religious service or spiritual practice at least once in the past month
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|--------|
| NY ▼ | 27% | 957 |
| NCI-IDD | 32% | 12,979 |

Table 60. Takes part in groups, organizations or communities (in-person or virtually)
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|--------|
| NY | 23% | 964 |
| NCI-IDD | 26% | 12,969 |

Table 61. The groups, organizations or communities takes part in include people without disabilities

| State v NCI | Average | N |
|-------------|---------|-------|
| NY | 62% | 209 |
| NCI-IDD | 58% | 3,138 |

Table 62. Community Inclusion Scale⁶

| State v NCI | Average | N |
|-------------|---------|--------|
| NY | 74% | 993 |
| NCI-IDD | 75% | 11,712 |

⁶ Risk adjusted. Scale was produced by using data from four variables; variables related to shopping, errands, entertainment and eating out in the community.

Went out shopping at least once in the past month

Went out on errands at least once in the past month

Went out for entertainment at least once in the past month

Went out to eat at least once in the past month

Went out to religious service or spiritual practice at least once in the past month

Participated as a member in community group

The groups, organizations or communities takes part in include people without disabilities

Community Inclusion Scale

Choice and Decision-Making

Value Statement: People are supported to make everyday choices and life decisions. Support for decision-making includes necessary information and experiences

Table 63. Chose or had some input in choosing where they live if not living in the family home
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY ▼ | 40% | 547 |
| NCI-IDD | 57% | 7,355 |

Table 64. Chose or had some input in choosing their housemates if not living in the family home, or chose to live alone
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY ▼ | 28% | 577 |
| NCI-IDD | 44% | 7,384 |

Table 65. Decides or has help deciding their daily schedule
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|--------|
| NY ▼ | 82% | 973 |
| NCI-IDD | 88% | 13,099 |

Table 66. Decides or has help deciding how to spend free time⁷
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|--------|
| NY | 93% | 970 |
| NCI-IDD | 95% | 13,093 |

⁷ This is asking about who chooses how the person spends their time when they are not working, attending a day program, or doing other regular daily activity with or without supports

Table 67. Has enough choice about what to do in free time
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|--------|
| NY | 92% | 933 |
| NCI-IDD | 94% | 12,706 |

Table 68. Chose or had some help in choosing where they work (among those with a paid community job)
Reported for those determined to have a paid community job based on Background Information section

Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|-------|
| NY | 86% | 73 |
| NCI-IDD | 90% | 1,794 |

Table 69. Chose or had some input in choosing day program or workshop
Only includes those respondents determined to have a unpaid community activity, unpaid paid facility based activity or paid facility based activity in the Background Information section

Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|-------|
| NY ▼ | 41% | 262 |
| NCI-IDD | 64% | 4,752 |

Table 70. Has input in choosing their regular day activities (in addition to or instead of a paid community job and/or day program/workshop)
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|-------------|---------|-------|
| NY ▼ | 75% | 436 |
| NCI-IDD | 86% | 7,443 |

Table 71. Chooses or has help deciding what to buy or has set limits on what to buy with their spending money
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|--------|
| NY ▼ | 85% | 907 |
| NCI-IDD | 90% | 12,718 |

Table 72. Chose staff or were aware they could request to change staff
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|--------|
| NY ▼ | 40% | 800 |
| NCI-IDD | 63% | 11,237 |

Table 73. Can change their case manager/service coordinator if wants to
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|--------|

|----------------|---------|--------|
| NY | 86% | 977 |
| NCI-IDD | 91% | 13,270 |

⁹ (The Everyday Choices scale includes choice of: daily schedule, how to spend money, and free time activities.)

Chose or had some input in choosing where they live if not living in the family home

Chose or had some input in choosing their housemates if not living in the family home, or chose to live alone

Decides or has help deciding their daily schedule

Has enough choice about what to do in free time

Chose or had some help in choosing where they work (among those with a paid community job)

Chose or had some input in choosing day program or workshop

Has input in choosing their regular day activities (in addition to or instead of a paid community job and/or day program/workshop)

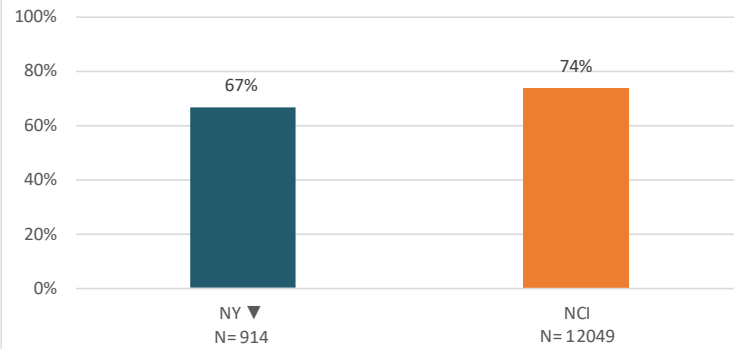

Chooses or has help deciding what to buy or has set limits on what to buy with their spending money

Chose staff or were aware they could request to change staff

Can change their case manager/service coordinator if wants to

Life Decisions Scale (The Life Decisions includes choice of: residence, work, day activity, staff, and roommates.)

Everyday Choices Scale (The Everyday Choices scale includes choice of: daily schedule, how to spend money, and free time activities.)

Relationships

Value Statement: People are supported to build and maintain relationships that are important to them

Table 76. Has friends who are not staff or family members

| State v NCI | Average | N |
|-------------|---------|-------|
| NY | 78% | 542 |
| NCI-IDD | 78% | 8,134 |

Table 77. Has best friend (may be staff or family)

| State v NCI | Average | N |
|-------------|---------|-------|
| NY | 79% | 447 |
| NCI-IDD | 81% | 7,015 |

Table 78. Wants more help to meet or keep in contact with friends.
“Yes” and “Maybe” responses combined

| State v NCI | Average | N |
|-------------|---------|-------|
| NY ▲ | 65% | 526 |
| NCI-IDD | 56% | 7,787 |

Table 79. Has friends (may be staff or family) and can see their friends in person when they want

| State v NCI | Average | N |
|-------------|---------|-------|
| NY ▼ | 59% | 449 |
| NCI-IDD | 68% | 7,007 |

Table 80. Has other ways of talking chatting or communicating with friends when cannot see them in person

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 80% | 451 |
| NCI-IDD | 81% | 7,042 |

Table 81. Can see or communicate with their family when they want (among those who do not live in the family home)

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 78% | 312 |
| NCI-IDD | 83% | 4,708 |

Table 82. Often feels lonely

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 9% | 518 |
| NCI-IDD | 11% | 7,865 |

Table 83. Can go on a date or is married or living with partner

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 77% | 333 |
| NCI-IDD | 77% | 6,270 |

Has friends who are not staff or family members

Has best friend (may be staff or family)

Wants more help to make or keep in contact with friends (Yes and Maybe responses combined)

Has friends (may be staff or family) and can see them when they want

Has other ways of talking chatting or communicating with friends when cannot see them in person

Can see and communicate with their family when they want if not living with family

Often feels lonely

Can go on a date or is married or living with partner

Satisfaction

Value statement: People are satisfied with their everyday lives – where they live, work, the supports they receive, and what they do during the day

Table 84. Likes home or where lives

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 89% | 547 |
| NCI-IDD | 89% | 8,276 |

Table 85. Wants to live somewhere else

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 30% | 531 |
| NCI-IDD | 29% | 8,027 |

Table 86. Has enough things they like to do at home

| State v NCI | Average | N |
|----------------|---------|-------|
| NY ▼ | 78% | 528 |
| NCI-IDD | 83% | 7,964 |

Table 87. Likes paid community job (if working in a paid community job)¹⁰

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 94% | 71 |
| NCI-IDD | 91% | 1,568 |

¹⁰ Based on those reported to have a paid community job (from the Background Information Section)

Table 88. Wants to go out shopping more, less or the same amount as last month
Proxy respondents were allowed for this question

| State v NCI | More | Less | Same | N |
|----------------|------|------|------|--------|
| NY | 40% | 5% | 56% | 931 |
| NCI-IDD | 39% | 5% | 56% | 12,673 |

Table 89. Wants to go out for entertainment more, less or the same amount as last month
Proxy respondents were allowed for this question

| State v NCI | More | Less | Same | N |
|----------------|------|------|------|--------|
| NY | 56% | 1% | 43% | 941 |
| NCI-IDD | 53% | 2% | 45% | 12,579 |

Table 90. Wants to go out to a restaurant or coffee shop more, less or the same amount as last month
Proxy respondents were allowed for this question

| State v NCI | More | Less | Same | N |
|----------------|------|------|------|--------|
| NY | 52% | 2% | 45% | 937 |
| NCI-IDD | 49% | 3% | 48% | 12,739 |

Table 91. Wants to go out to a religious service or spiritual practice more, less or the same amount as last month
Proxy respondents were allowed for this question

| State v NCI | More | Less | Same | N |
|----------------|------|------|------|--------|
| NY | 23% | 2% | 75% | 907 |
| NCI-IDD | 27% | 2% | 71% | 12,076 |

Table 92. Person wants to be a part of more community groups
Proxy respondents were allowed for this question

| State v NCI | Average | No | N |
|----------------|---------|-----|--------|
| NY | 60% | 40% | 869 |
| NCI-IDD | 61% | 39% | 12,040 |

Table 93. Satisfaction with community inclusion scale¹¹

| State v NCI | Average | N |
|----------------|---------|--------|
| NY | 55% | 970 |
| NCI-IDD | 56% | 13,030 |

¹¹ The scale includes the following items: • Person is satisfied with how often they went on shopping in the past month • Person is satisfied with how often they went out for entertainment in the past month • Person is satisfied with how often they went to a restaurant or coffee shop in the past month • Person is satisfied with how often they went to a religious service or spiritual practice in the past month • Person is satisfied with the level of community group participation

Table 94. Likes how they usually spend time during the day

| State v NCI | Average | N |
|----------------|---------|-------|
| NY ▼ | 73% | 532 |
| NCI-IDD | 81% | 7,976 |

Table 95. Has used telehealth for healthcare services and like using it
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 53% | 615 |
| NCI-IDD | 58% | 6,967 |

Table 96. Has accessed services and support using video conference technology and like using it
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 62% | 412 |
| NCI-IDD | 61% | 3,607 |

Table 97. Have talked with their case manager using video conference technology and like using it
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 61% | 638 |
| NCI-IDD | 63% | 7,059 |

Likes home or where he/she lives

Wants to live somewhere else

Has enough things they like to do at home

Likes paid community job

Person wants to go out for shopping more, less or the same amount as last month

Person wants to go out for entertainment more, less or the same amount as last month

Person wants to go out to a restaurant or coffee shop more, less or the same amount as last month

Person wants to go out to a religious service or spiritual practice more, less or the same amount as last month

Person wants to be a part of more community groups

Satisfaction with community inclusion

Likes how they usually spend time during the day

Has used telehealth for healthcare services and liked using it

Has accessed services and support using video conference technology and like using it

Have talked with their case manager using video conference technology and liked using it

Self-Direction

Value statement: People who use a self-directed supports option have the information and support needed to actively participate in directing their own supports and services.

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population. Additionally, many states have very low rates of individuals who were surveyed and were reported to use a self-directed supports option. **Significance testing was not conducted on these items.**

PLEASE NOTE: The data in this section may reflect the perspective of the person receiving services or that of friends/family who participate in decisions about the self-directed supports option.

Table 98. Using a self-directed supports option
Information may have been obtained through state records

| State v NCI | No | Yes | N |
|-------------|-----|-----|--------|
| NY | 79% | 21% | 1,012 |
| NCI-IDD | 81% | 19% | 10,679 |

Table 99. People who make decisions or have input in making decisions about the services that are self-directed

| State v NCI | Person mostly makes decisions | Person has input, and family/friend helps | Family/friend makes decisions, person does not have input | Decisions about what services are received are made by a case manager or another professional employed by the state | N |
|-------------|-------------------------------|-------------------------------------------|-----------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|-------|
| NY | 17% | 47% | 31% | 5% | 192 |
| NCI-IDD | 13% | 45% | 36% | 5% | 1,698 |

Table 100. Can make changes to individual budget/services if needed

Table 106. Frequency with which the person gets information from FMS¹²

| State v NCI | At Least Every Three Months | About Twice a Year | Once a Year or Less | N |
|-------------|-----------------------------|--------------------|---------------------|-----|
| NY | 78% | 17% | 5% | 110 |
| NCI-IDD | 70% | 18% | 12% | 927 |

Table 107. Needs help with these elements of self-direction

| State v NCI | Help planning out service needs and setting a schedule for staff | Help getting staff paid | Help finding or keeping the staff they want | Help training staff | Help managing benefits for staff | Help understanding information gets from the FMS | More information about what services and supports can get | Other | Don't know, no response, unclear response | N |
|-------------|------------------------------------------------------------------|-------------------------|---------------------------------------------|---------------------|----------------------------------|--------------------------------------------------|-----------------------------------------------------------|-------|-------------------------------------------|-----|
| NY | 24% | 14% | 33% | 18% | 18% | 22% | 43% | 30% | 15% | 164 |
| NCI-IDD | 14% | 15% | 30% | 14% | 10% | 22% | 45% | 25% | 16% | 907 |

¹² Please note: OR replaced “FMS” with “CME”

Using a self directed supports option

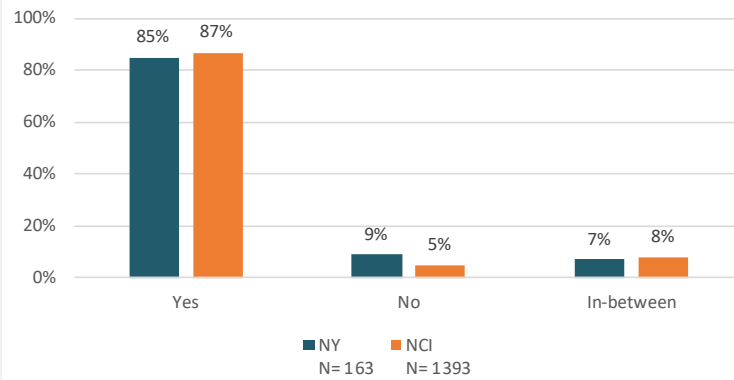

People who make decisions or have input in making decisions about the services that are self directed

Can make changes to individual budget/services if needed

Has enough help deciding how to direct services

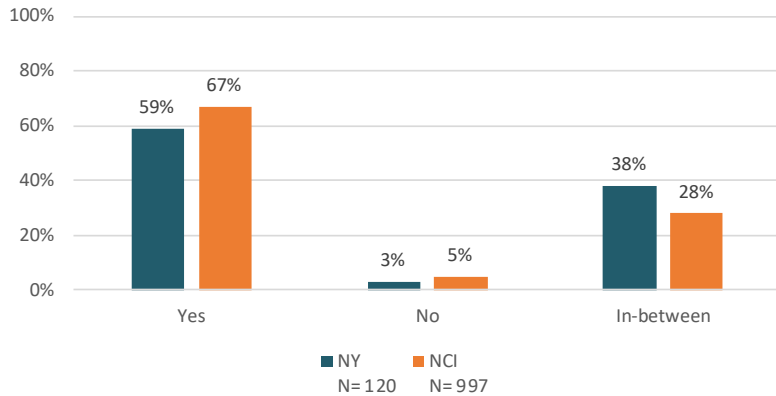

The services and supports they want to self-direct are always available

Gets information about budget and services from financial management service (FMS)

Information from FMS is easy to understand

Frequency with which the person gets information from FMS

Needs help with these elements of self direction

Service Coordination

Value statement: Case managers/service coordinators are accessible and responsive to people. Case managers/service coordinators are knowledgeable about people's needs and the services/supports available to address those needs. Service plans reflect people's goals and needs and are modified as changes occur. People actively engage in the service planning process.

Table 108. Has met or spoken with case manager/service coordinator

| State v NCI | Average | N |
|-------------|---------|-------|
| NY | 92% | 517 |
| NCI-IDD | 93% | 7,779 |

Table 109. Case manager/service coordinator knows what is important to person

| NCI-IDD | 82% | 12,723 |

Table 119. Of those who say they want to learn to perform ADLs more independently, the percentage who have a related goal in the service plan¹³

| State v NCI | Average | N |
|-------------|---------|-------|
| NY | 63% | 113 |
| NCI-IDD | 73% | 1,302 |

Table 120. Of those who say they want a paid job in the community (and do not currently have one), the percentage who have community employment as a goal in the service plan¹⁴

| State v NCI | Average | N |
|-------------|---------|-------|
| NY ▼ | 20% | 214 |
| NCI-IDD | 35% | 2,064 |

¹³ Please note: “ADL” refers to Activities of Daily Living. A related goal in the service plan refers to goals to increase independence or improve function skill performance in ADL. This analysis combines two questions that come from two different sources 1. Whether there is a goal in service plan to increase independence or improve functional skill performance in ADLs obtained through administrative records; and, 2. Whether the person wants to learn to do more ADLs on their own is asked during the face-to-face meeting with the person receiving services and can only be answered by that person.

¹⁴ Please note: This analysis combines two questions that come from two different sources 1. Whether community employment is a goal in service plan; and 2. Whether the person wants a job is asked during the face-to-face meeting with the person receiving services and can only be answered by that person

Has met or spoken with case manager/service coordinator

Case manager/service coordinator knows what is important to person

Able to contact case manager/service coordinator when wants

Case manager/service coordinator has talked to them about technology that may help them in their everyday life

Was at last service planning meeting, or had the opportunity to be but chose not to

Knew what was being talked about at last service planning meeting

Last service planning meeting included people respondent wanted to be there

Person helped make service plan

Case manager/service coordinator reviews their service plan with them throughout the year, when needed

Service plan includes things that are important to person

Knows who to ask if wants to change something about services

Of those who say they want to learn to perform ADLs more independently, the percentage who have a related goal in the service plan

Of those who say they want a paid job in the community (and do not currently have one), the percentage who have community employment as a goal in the service plan

Workforce

Value statement: There is stable and sufficient direct support workforce to meet demand. People are supported by staff who demonstrate respect for what is important to the person in their day-to-day life. Staff have the right skills to support people.

Table 121. Staff are respectful of person's culture

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 95% | 207 |
| NCI-IDD | 95% | 4,433 |

Table 122. Staff treat person with respect

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 92% | 211 |
| NCI-IDD | 92% | 4,554 |

Table 123. Person can talk or communicate with staff in their preferred language

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 99% | 205 |
| NCI-IDD | 98% | 4,499 |

Table 124. Staff do things the way person wants them done

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 85% | 208 |
| NCI-IDD | 86% | 4,440 |

Table 125. When in the community, staff support person in the way they want

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 92% | 205 |
| NCI-IDD | 91% | 4,414 |

Table 126. Staff come and leave when they are supposed to

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 86% | 207 |
| NCI-IDD | 90% | 4,349 |

Table 127. Person's staff change too often

A higher percentage may not indicate a more positive result for this item

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 33% | 199 |
| NCI-IDD | 40% | 4,323 |

Table 128. Staff have the right training to meet person's needs

Proxy respondents (who were not staff) were allowed for this question

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 90% | 573 |
| NCI-IDD | 90% | 8,503 |

Staff are respectful of person's culture

Staff treat person with respect

Person can talk or communicate with staff in their preferred language

Staff do things the way person wants them done

When in the community, staff support person in the way they want

Staff come and leave when they are supposed to

Person's staff change too often

Staff have the right training to meet person's needs

Access

Value statement: Services and supports are available, accessible, and responsive to people's needs People know the options available to them for services and supports.

Table 129. Able to get places when wants to do something outside of home like going out to see friends, for entertainment, or to do something fun

| State v NCI | Average | N |
|-------------|---------|-------|
| NY | 74% | 535 |
| NCI-IDD | 78% | 7,939 |

Table 130. Has a way to get places they need to go (like work, appointments, etc.)

| State v NCI | Average | N |

Table 144. Additional services needed

Proxy respondents were allowed for this question

| State v NCI | Help finding a new place to live | Changes, modifications to home | Staff support to help at home | Help working on job skills | Help finding or signing up for classes | Help to find something different to do during the day (not including paid work) | Help finding more reliable transportation |
|-------------|----------------------------------|--------------------------------|-------------------------------|----------------------------|----------------------------------------|---------------------------------------------------------------------------------|-------------------------------------------|
| NY | 13% | 7% | 22% | 24% | 22% | 25% | 14% |
| NCI-IDD | 11% | 7% | 15% | 17% | 15% | 17% | 13% |

Table 145. Additional services needed (continued)

Proxy respondents were allowed for this question

| State v NCI | Help getting or using tech to help in everyday life | Help with healthcare | Help understanding medication | Help finding, getting or setting up mental health or behavioral health supports | Anything else | Does not need additional supports | Don't know |
|-------------|-----------------------------------------------------|----------------------|-------------------------------|---------------------------------------------------------------------------------|---------------|-----------------------------------|------------|
| NY | 18% | 9% | 10% | 12% | 17% | 44% | 1% |
| NCI-IDD | 12% | 8% | 7% | 8% | 14% | 49% | 2% |

Able to get places when wants to do something outside of home like going out to see friends, for entertainment, or to do something fun

Has a way to get places she needs to go (like work, appointments, etc.)

Adequate Transportation Scale

Has access to the internet

Internet always works at home

Frequency Uses Internet

Uses technology in everyday life to help them do more things on their own

Has enough help to use the technology and devices that help them in their everyday life (if uses technology that helps them do more things on their own)

Knows who to talk to if there are issues with the technology and devices that help them in their everyday life (if uses technology that helps them do more things on their own)

Has used telehealth to talk with a health professional.

Accessed services or supports using videoconference technology

Has talked with their case manager/service coordinator using videoconference technology

Has a cell phone or smartphone

Wants a cell phone or smartphone (if does not have one)

Reasons does not have cell phone or smartphone

Additional services needed

Additional services needed (continued)

Safety

Value Statement: People feel safe at home and outside of the home. People know whom to talk to if they don't feel safe.

Table 146. Feels afraid in their home, neighborhood, transport, workplace, day program/at other daily activity and/or other places

| State v NCI | Average | N |
|----------------|---------|-------|
| NY ▲ | 28% | 532 |
| NCI-IDD | 20% | 7,851 |

Table 147. Has someone to go to for help when they feel afraid

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 95% | 536 |
| NCI-IDD | 94% | 7,961 |

There is at least one place where the person feels afraid or scared in home day program work walking in the community in transport or other place

Has someone to go to for help if they ever feel scared

Health

Value Statement: People have access to and get recommended health services at the recommended frequencies.

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population

Table 148. Has a primary care doctor or practitioner
Information may have been obtained through state records

| NY ▼ | 51% | 880 |
| NCI-IDD | 59% | 12,158 |

Table 178. Others (who do not live in the home) let person know before entering home

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 87% | 534 |
| NCI-IDD | 88% | 7,899 |

Table 179. Others let person know before coming into person's bedroom

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 83% | 526 |
| NCI-IDD | 82% | 7,936 |

Table 180. Others read person's mail or email without asking
A higher average for this item may not reflect a more positive result

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 9% | 480 |
| NCI-IDD | 12% | 7,297 |

Table 181. There are no rules for using phone or internet

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 81% | 502 |
| NCI-IDD | 82% | 7,390 |

Table 182. There are rules about having friends or visitors in the home

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 32% | 494 |
| NCI-IDD | 31% | 7,315 |

Table 183. Can stay at home if others in the house go somewhere²²
Proxy respondents were allowed for this question

| State v NCI | Average | N |
|----------------|---------|--------|
| NY | 49% | 909 |
| NCI-IDD | 48% | 12,111 |

²² Please note: The denominator for this item does not exclude people who live at home, which differs from past NCI-IDD reporting.

Table 184. Respect for Personal Space Scale²³

| State v NCI | Average | N |
|----------------|---------|-------|
| NY | 88% | 542 |
| NCI-IDD | 89% | 8,120 |

²³ The scale includes: • Other people let respondents know before they come into their home • Other people let respondents know before coming into their bedroom • Respondent has a place to be alone in their home

Has attended a self-advocacy group, meeting, conference or event or had the opportunity and chose not to

Has voted in local state or federal election or had the opportunity and chose not to

Has a place to be alone in the home

Has a key to the home

Wants a key to the home (if respondent does not have one)

Can lock bedroom

Others (who do not live in the home) let person know before entering home

Others let the person know before entering person's bedroom

There are rules about having friends or visitors at home

Can stay at home if others in the house go somewhere if not living alone

Respect for Personal Space Scale
