Table 52: Can be themselves when with others in groups, organizations, or communities the person takes part in (if person takes part in groups, organizations, or communities)	39

Table 53: Others include them as part of the group in groups, organizations, or communities the person takes part in (if person takes part in groups, organizations, or communities)	40
Table 54: Gets help to learn new things	41
Choice and Decision Making.....	42
Table 55. Chose or had some input in choosing where they live if not living in the family home	43
Table 56. Chose or had some input in choosing their housemates if not living in the family home, or chose to live alone	44
Table 57. Decides or has help deciding their daily schedule	45
Table 58. Decides or has help deciding how to spend free time	46
Table 59. Has enough choice about what to do in free time	47
Table 60. Chose or had some help in choosing where they work (among those with a paid community job)	48
Table 61. Chose or had some input in choosing day program or workshop.....	49
Table 62. Has input in choosing their regular day activities (in addition to or instead of a paid community job and/or day program/workshop)	50
Table 63. Chooses or has help deciding what to buy or has set limits on what to buy with their spending money.....	51
Table 64. Chose staff or were aware they could request to change staff.....	52
Table 65. Can change their case manager/service coordinator if wants to	53
Table 66. Life Decisions Scale.....	54
Table 67. Everyday Choices Scale.....	55
Community Participation	56
Table 68. Went out shopping at least once in the past month (Examples: groceries, clothing).....	57
Table 69. Went out on errands at least once in the past month (Examples: banks, post office, hairdressers or barber).....	58
Table 70. Went out for entertainment at least once in the past month (Examples: go to the movies or attend plays, concerts, sporting events, going out dancing)	59
Table 71. Went out to a restaurant or coffee shop at least once in the past month	60
Table 72. Went out to religious service or spiritual practice at least once in the past month (Examples: church, synagogue, study, or other place of worship)	61
Table 73. Takes part in groups, organizations or communities (in-person or virtually).....	62
Table 74. The groups, organizations or communities takes part in include people without disabilities	63
Table 75. Community Inclusion Scale.....	64
Relationships	65
Table 76. Has friends who are not staff or family members	66
Table 77. Has best friend (may be staff or family).....	67
Table 78. Wants help to make or keep in contact with friends.....	68

Table 79. Has friends (may be staff or family) and can meet with their friends in person when they want	69
Table 80. Has other ways of talking, chatting, or communicating with friends when cannot see them in person	70
Table 81. Can see and/or talk with their family when they want (among those who do not live in the family home).....	71
Table 82. Often feels lonely	72
Table 83. Can go on a date or is married or living with partner	73
Satisfaction	74
Table 84. Likes home or where lives.....	75
Table 85. Wants to live somewhere else.....	76
Table 86. Has enough things they like to do at home.....	77
Table 87. Likes paid community job (if working in a paid community job).....	78
Table 88. Wants to go out shopping more, less or the same amount as last month	79
Table 89. Wants to go out for entertainment more, less or the same amount as last month	80
Table 90. Wants to go out to a restaurant or coffee shop more, less or the same amount as last month.....	81
Table 91. Wants to go out to a religious service or spiritual practice more, less or the same amount as last month.....	82
Table 92. Person wants to be a part of more community groups	83
Table 93. Satisfaction with Community Inclusion Scale	84
Table 94. Likes how they usually spend time during the day	85
Table 95. Has used telehealth for healthcare services and like using it	86
Table 96. Has accessed services and support using video conference technology and like using it	87
Table 97. Have talked with their case manager using video conference technology like using it	88
Self-Direction	89
Table 98. Using a self-directed supports option.....	90
Table 99. People who make decisions or have input in making decisions about the services that are self directed	91
Table 100. Can make changes to individual budget/services if needed.....	92
Table 101. Has enough help deciding how to direct services.....	93
Table 102. Has the amount of control wanted with the services that are self-directed	94
Table 103. The services and supports they want to self-direct are always available. This includes things like having the services that they want available when they want them and having enough staff to hire.	95
Table 104. Gets information about budget and services from financial management service (FMS)	96
Table 105. Information from FMS is easy to understand.....	97
Table 106. Frequency with which the person gets information from FMS	98
Table 107. Needs help with these elements of self direction	99

Table 108. Needs help with these elements of self direction (continued)	100
Service Coordination	101
Table 109. Has met or spoken with case manager/service coordinator	102
Table 110. Case manager/service coordinator knows what is important to person	103
Table 111. Able to contact case manager/service coordinator when wants	104
Table 112. Case manager/service coordinator has talked to them about technology that may help them in their everyday life.....	105
Table 113. Was at last service planning meeting, or had the opportunity to be but chose not to	106
Table 114. Knew what was being talked about at last service planning meeting.....	107
Table 115. Last service planning meeting included people person wanted to be there	108
Table 116. Person helped make service plan.....	109
Table 117. Case manager/service coordinator reviews their service plan with them throughout the year, when needed.....	110
Table 118. Service plan includes things that are important to person.....	111
Table 119. Knows who to ask if wants to change something about services.....	112
Table 120. Of those who say they want to learn to perform ADLs more independently, the percentage who have a related goal in the service plan	113
Table 121. Of those who say they want a paid job in the community (and do not currently have one), the percentage who have community employment as a goal in the service plan	114
Workforce	115
Table 122. Staff are respectful of person's culture	116
Table 123. Staff treat person with respect.....	117
Table 124. Person can talk or communicate with staff in their preferred language.....	118
Table 125. Staff do things the way person wants them done.....	119
Table 126. When in the community, staff support person in the way they want.....	120
Table 127. Staff come and leave when they are supposed to.....	121
Table 128. Person's staff change too often	122
Table 129. Staff have the right training to meet persons needs.....	123
Access.....	124
Table 130. Able to get places when wants to do something outside of home like going out to see friends, for entertainment, or to do something fun.	125
Table 131. Has a way to get places needs to go (like work, appointments, etc.).....	126
Table 132. Adequate Transportation Scale	127
Table 133. Has access to the internet.....	128
Table 134. Internet always works at home	129

Table 135. Frequency uses internet.....	130
Table 136. Uses technology in everyday life to help them do more things on their own	131
Table 137. Has enough help to use the technology and devices that help them in their everyday life (if uses technology that helps them do more things on their own).....	132
Table 138. Knows who to talk to if there are issues with the technology and devices that help them in their everyday life (if uses technology that helps them do more things on their own)	133
Table 139. Has used telehealth to talk with a health professional.....	134
Table 140. Accessed services or supports using videoconference technology	135
Table 141. Has talked with their case manager/service coordinator using videoconference technology.....	136
Table 142. Has a cell phone or smartphone.....	137
Table 143. Wants a cell phone or smartphone (if does not have one)	138
Table 144. Reasons does not have cell phone or smartphone	139
Table 145. Additional services needed.....	140
Table 146. Additional services needed (continued).....	141
Table 147. Additional services needed (continued).....	142
Table 148. Additional services needed (continued).....	143
Safety	144
Table 149. Feels afraid in their home, neighborhood, transport, workplace, day program/at other daily activity and/or other places.....	145
Table 150. Has someone to go to for help when they feel afraid.....	146
Health	147
Table 151. Has a primary care doctor or practitioner	148
Table 152. In poor health.....	149
Table 153. Had a complete physical exam in the past year (This refers to a routine exam, not a visit for a specific problem or illness)	150
Table 154. Had a routine dental exam in the past year	151
Table 155. Had an eye exam/vision screening in the past year	152
Table 156. Had a hearing test in the past five years.....	153
Table 157. Had a Pap test in the past three years (among women 21 and older).....	154
Table 158. Had a mammogram test in the past two years (among women age 50 and over).....	155
Table 159. Last colorectal cancer screening (among people age 45 to 75).....	156
Table 160. Had a flu vaccine in the past 12 months	157
Table 161. Went to the emergency room for any reason to get care for themselves in the past 12 months	158
Table 162. Had an unexpected hospital admission due to dehydration, bowel obstruction, seizure, aspiration, or GERD, in the past year.....	159

Table 163. Fell and hurt themselves in the past six months.....	160
Medications.....	161
Table 164. Takes at least one medication for mood, anxiety, psychotic disorder, and/or behavioral challenges	162
Table 165. Takes medication for mood, anxiety, and/or psychotic disorders	163
Table 166. Number of medications taken for at least one of the following: mood disorders, anxiety, or psychotic disorders.....	164
Table 167. Takes medication for behavioral challenges.....	165
Table 168. Number of medications taken for behavioral challenges if taking at least one for this purpose	166
Table 169. Has behavior plan.....	167
Table 170. Has behavior plan (among those who take medication for a behavior challenge).....	168
Wellness.....	169
Table 171. Uses nicotine or tobacco products.....	170
Table 172. Body Mass Index (BMI) category (BMI calculated using data on weight and height)	171
Table 173. Exercises or does physical activity at least once per week for 10 minutes or more at a time.....	172
Table 174. Exercises or does physical activity at least once per week that makes the muscles in arms, legs, back, and/or chest work hard.....	173
Rights and Respect.....	174
Table 175. Has attended a self-advocacy group, meeting, conference or event or had the opportunity and chose not to.....	175
Table 176. Has ever voted in local, state, or federal election, or had the opportunity and chose not to.....	176
Table 177. Has a place to be alone in the home	177
Table 178. Has a key to the home.....	178
Table 179. Wants a key to the home (if does not have one)	179
Table 180. Can lock bedroom if wants.....	180
Table 181. Others (who do not live in the home) let person know before entering home	181
Table 182. Others let person know before coming into person's bedroom.....	182
Table 183. Others read person's mail or email without asking	183
Table 184. There are no rules for using phone or internet.....	184
Table 185. There are rules about having friends or visitors in the home	185
Table 186. Can stay at home if others in the house go somewhere.....	186
Table 187. Respect for Personal Space Scale	187

What is National Core Indicators® – Intellectual and Developmental Disabilities (NCI-IDD)?

The National Core Indicators® – Intellectual and Developmental Disabilities (NCI-IDD) program is a voluntary effort by state developmental disability agencies to track their performance using a standardized set of consumer and family/guardian surveys with nationally validated measures. The effort is coordinated by the National Association of State Directors of Developmental Disabilities Services (NASDDDS) and the Human Services Research Institute (HSRI).

Where are the statistics in this report from?

This report includes findings from the National Core Indicators® 2022-23 In-Person Survey (IPS). The data shown are weighted NCI-IDD averages. These data are comprised of valid surveys collected across 33 states: AL, AR, CA, CT, DE, DC, FL, GA, HI, IL, IN, KS, KY, MD, MI, MN, MO, MT, NE, NV, NH, NJ, NY, NC, OK, OR, PA, SC, TX, UT, VA, WI, WY.

What is the NCI-IDD In-Person Survey?

The NCI-IDD In-Person Survey is completed with adults with IDD age 18 and older receiving at least one paid service (in addition to case management) from the state DD service system. The survey instrument includes a “Background Information Section”, which gathers data about the consumer from agency records, and an In-Person Survey that is conducted face-to-face with the person receiving services, either in person or via videoconference. The In-Person Survey is composed of two sections: Section I includes subjective questions that can only be answered by the person receiving services from the state. Section II includes objective, fact-based questions that can be answered by the person or, if needed, a proxy respondent who knows the person well.

What is included in this report?

This report includes this state’s In-Person Survey data compared to the weighted NCI-IDD Average. State outcomes that are statistically significantly higher or lower than the NCI-IDD Average are indicated with an arrow:

1. Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ↑;
2. Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ↓.

Significance is taken a .01 and account for *effect size*. For more information about significance testing and effect sized, please see the Methodology section of the National report.

Presentation of Data

The charts in this document, grouped by subdomain, display the state results alongside the weighted average across states (NCI-IDD average). The charts are followed by accessible tables containing the same information.

Many questions in the IPS allow respondents to answer a question with “middle” response like “maybe”, “sometimes” or “in-between”. The data in this report are “collapsed” data. That means that two or more response options are grouped together if they are considered to reflect a positive outcome. The table titles explain which options were grouped. To see the breakout of responses for each option, please see Appendix C of the National In-Person Report.

The NCI-IDD averages are “weighted” to reflect the states’ relative population and sample sizes. We created the weights using the state’s number of valid surveys and its total survey-eligible population. This way, a state that provides services to a larger number of people but uses a sample similar in size to other states has a greater influence on the overall NCI-IDD average (that is, its contribution is *proportional to its service population*). To find out more about the development of In-Person Survey, data analysis and state samples, check out the National In-Person Survey Report.

Demographics

This section presents descriptive information of individuals surveyed.

Important notes on data:

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population.

Table 1. Age

State v NCI-IDD	Mean Age (Years)	Min	Max	Standard Deviation	Median	N
MT	46.3	20	93	15.2	45	360
NCI-IDD Average	40.3	18	99	15.6	36	25,041

Table 2. Age Group

State v NCI-IDD	18-22	23-34	35-54	55-74	75 and older	Unknown	N
MT	3%	21%	44%	28%	3%	1%	365
NCI-IDD Average	9%	37%	32%	19%	2%	1%	25,424

Table 3. Sex

Refers to individual's sex assigned at birth

State v NCI-IDD	Male	Female	Don't Know	N
MT	58%	42%	0%	362
NCI-IDD Average	60%	40%	0%	25,062

Table 4. Marital Status

Information may have been collected in the field

State v NCI-IDD	Single, Never Married	Married	Single, Married in the Past	Don't Know	N
MT	96%	0%	2%	1%	360
NCI-IDD Average	93%	1%	2%	4%	24,913

Table 5. Is this person a parent?*Categories are not mutually exclusive, therefore N is not shown*

State v NCI-IDD	No, does not have a child	Yes, parent of a child or children under 18	Yes, parent of a child or children over 18	Yes, parent of a child or children, unknown age(s)	Don't know
MT	97%	1%	2%	1%	2%
NCI-IDD Average	96%	2%	2%	0%	14%

Table 6. Race and Ethnicity*Categories are not mutually exclusive, therefore N is not shown; 'don't know' responses are included in the denominator, which is different from past years*

State v NCI-IDD	American Indian or Alaska Native	Asian	Black or African American	Pacific Islander	White	Hispanic or Latino	Other	Don't Know
MT	11%	0%	1%	0%	90%	1%	0%	1%
NCI-IDD Average	1%	4%	17%	1%	63%	14%	3%	4%

Table 7. Residential designation*Information based on residential designation defined by the USDA: <https://www.ers.usda.gov/data-products/rural-urban-commuting-area-codes.aspx>*

State v NCI-IDD	Metropolitan	Micropolitan	Rural	Small town	N
MT	38%	30%	12%	21%	362
NCI-IDD Average	82%	10%	2%	5%	25,007

Table 8. Type of residence – ICFs/ID, nursing facilities or other specialized institutional settings

State v NCI-IDD	ICF/ID, 4-6 Residents With Disabilities	ICF/ID, 7-15 Residents With Disabilities	ICF/ID, 16 or More Residents With Disabilities	Nursing Facility	Other Specialized Institutional Facility	N
MT	0%	0%	0%	0%	0%	365
NCI-IDD Average	2%	1%	0%	0%	0%	25,039

Table 9. Type of residence – group residential setting

State v NCI-IDD	Group Living Setting, 2-3 People With Disabilities	Group Living Setting, 4-6 People With Disabilities	Group Living Setting, 7-15 People With Disabilities	N
MT	4%	23%	21%	365
NCI-IDD Average	8%	18%	5%	25,039

Employment

Value statement: People have competitive paid jobs in community-based businesses. People's jobs reflect varied preferences for employment.

NCI-IDD reports on four types of paid community jobs:

1. Individual job without publicly funded supports—an individual job in which the person does not receive state or other funded supports;
2. Individual job with publicly funded supports— an individual job in which the person receives state or other funded supports;
3. Group-supported—a job that takes part in a community setting but is done with a group of individuals with disabilities (e.g., work crew). Group-supported jobs may or may not receive publicly funded supports; and
4. Community job in a business that primarily hires people with disabilities—a job where the employees with disabilities interact with the non-disabled population; this job is not in a traditional sheltered workshop and is NOT an enclave.

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population.

Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ↑;

Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ↓.

Has paid job in the community

Self-Direction

Value statement: People who use a self-directed supports option have the information and support needed to actively participate in directing their own supports and services.

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population. Additionally, many states have very low rates of individuals who were surveyed and were reported to use a self-directed supports option. **Significance testing was not conducted on these items.**

Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ↑;

Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ↓.

PLEASE NOTE: The data in this section may reflect the perspective of the person receiving services or that of friends/family who participate in decisions about the self-directed supports option.

Using a self-directed supports option

Table 98. Using a self-directed supports option

Information may have been obtained through state records

State v NCI-IDD	Yes	No	N
MT	12%	88%	359

Service Coordination

Value statement: Case managers/service coordinators are accessible and responsive to people. Case managers/service coordinators are knowledgeable about people's needs and the services/supports available to address those needs. Service plans reflect people's goals and needs and are modified as changes occur. People actively engage in the service planning process.

Important note on data

Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ↑;

Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ↓.

Has met or spoken with case manager/service coordinator

Wellness

Value Statement: People are supported to engage in and maintain healthy habits and lifestyles

Important note on data

Several states had large amounts of missing data or data recorded as “don’t know.” Where 25% or more of a state’s sample had “don’t know” or missing responses, we used an asterisk (*) to indicate that state’s data should be interpreted with caution as it may not accurately represent the sample or service population.

Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ↑;

Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ↓.

Uses nicotine or tobacco products

Table 171. Uses nicotine or tobacco products

Information may have been obtained through state records

State v NCI-IDD	Average Within State	N
MT	8%	348
NCI-IDD Average	5%	23605

Body Mass Index (BMI) category (BMI calculated using data on weight and height)

Table 172. Body Mass Index (BMI) category (BMI calculated using data on weight and height)

Information may have been obtained through state records

State v NCI-IDD	Underweight	Normal	Overweight	Obese	N
MT *	6%	27%	32%	34%	273
NCI-IDD Average	5%	29%	28%	38%	22,082

Exercises or does physical activity at least once per week for 10 minutes or more at a time

Table 173. Exercises or does physical activity at least once per week for 10 minutes or more at a time

Proxy respondents were allowed for this question;

State v NCI-IDD	Average Within State	N
MT	80%	347
NCI-IDD Average	82%	24802

Exercises or does physical activity at least once per week that makes the muscles in arms, legs, back, and/or chest work hard

Table 174. Exercises or does physical activity at least once per week that makes the muscles in arms, legs, back, and/or chest work hard

Proxy respondents were allowed for this question

State v NCI-IDD	Average Within State	N
MT	31%	338
NCI-IDD Average	33%	24669

Rights and Respect

Value Statement: People's rights are respected and people receive the same respect and protections as others in the community.

Important note on data

Outcomes where the state is significantly above the NCI-IDD average are denoted with an up arrow ↑;

Outcomes where the state is significantly below the NCI-IDD average are denoted with a down arrow ↓.

Has attended a self-advocacy group, meeting, conference or event or had the opportunity and chose not to

Table 175. Has attended a self-advocacy group, meeting, conference or event or had the opportunity and chose not to

Proxy respondents were allowed for this question

State v NCI-IDD	Average Within State	N
MT ↑	37%	295
NCI-IDD Average	29%	23179

Has ever voted in local, state, or federal election, or had the opportunity and chose not to

Table 176. Has ever voted in local, state, or federal election, or had the opportunity and chose not to

Proxy respondents were allowed for this question

State v NCI-IDD	Average Within State	N
MT ↑	64%	317
NCI-IDD Average	48%	24080

Has a place to be alone in the home

Table 177. Has a place to be alone in the home

State v NCI-IDD	Average Within State	N
MT ↑	99%	248
NCI-IDD Average	96%	15147

Has a key to the home

Table 178. Has a key to the home

Proxy respondents were allowed for this question

State v NCI-IDD	Average Within State	N
MT ↓	41%	345
NCI-IDD Average	52%	24866

Wants a key to the home (if does not have one)

Table 179. Wants a key to the home (if does not have one)

Proxy respondents were allowed for this question

State v NCI-IDD	Yes	Maybe, not sure	No	N
MT	16%	9%	74%	188
NCI-IDD Average	15%	8%	77%	10,381

Can lock bedroom if wants

Table 180. Can lock bedroom if wants

Proxy respondents were allowed for this question

State v NCI-IDD	Average Within State	N
MT ↑	70%	310
NCI-IDD Average	58%	23258

Others (who do not live in the home) let person know before entering home

Table 181. Others (who do not live in the home) let person know before entering home

State v NCI-IDD	Average Within State	N
MT ↓	76%	240
NCI-IDD Average	87%	14621

Others let person know before coming into person's bedroom

Table 182. Others let person know before coming into person's bedroom

State v NCI-IDD	Average Within State	N
MT	86%	244
NCI-IDD Average	80%	14840

Others read person's mail or email without asking

Table 183. Others read person's mail or email without asking

State v NCI-IDD	Average Within State	N
MT	7%	230
NCI-IDD Average	9%	13386

There are no rules for using phone or internet

Table 184. There are no rules for using phone or internet

State v NCI-IDD	Average Within State	N
MT	84%	225
NCI-IDD Average	81%	13626

There are rules about having friends or visitors in the home

Table 185. There are rules about having friends or visitors in the home

State v NCI-IDD	Average Within State	N
MT ↓	18%	231
NCI-IDD Average	31%	13679

Can stay at home if others in the house go somewhere

Table 186. Can stay at home if others in the house go somewhere

Proxy respondents were allowed for this question

State v NCI-IDD	Average Within State	N
MT ↑	58%	298
NCI-IDD Average	44%	23242

Respect for Personal Space Scale

Table 187. Respect for Personal Space Scale

State v NCI-IDD	Average Within State	N
NCI-IDD Average	88%	15132
MT	87%	247

Table note: The scale includes “Other people let respondents know before they come into their home”, “Other people let respondents know before coming into their bedroom”, and “Respondent has a place to be alone in their home”.
